accessAbilities

Organizational Information

Parent Organization

Lifesteps

Vision, Mission and/or Purpose of Organization

Our Vision: Improve the quality of life for members of our communities. Our Mission: Providing services that empower people to achieve greater independence and enhanced quality of life.

History of Organization

For nearly 70 years, accessAbilities has been providing quality services to empower people with unique abilities to live life to its fullest. The Agency traces its roots back to 1954, when four families founded the Pennsylvania Cerebral Palsy Institute, later to become UCP of Western PA. Over time, the Agency began to offer services to people with all types of disabilities, not just Cerebral Palsy. In 2004, the Agency changed its name to accessAbilities, Inc. This new name better reflects the wide scope of services provided by the agency in its effort to enable people with disabilities to live independently. In July 2013, accessAbilities affiliated as a subsidiary of Lifesteps, Inc.

Service Information

Service Area

accessAbilities provides services in Allegheny, Armstrong, Butler, Cambria, Clarion, Clearfield, Fayette, Greene, Indiana, Jefferson, Mercer, Somerset, Washington and Westmoreland counties in Southwestern Pennsylvania.

Service Description

accessAbilities First Steps Early Intervention program provides a variety of home-based services for children ages birth to age 3. These services are designed to foster learning and growth during the most important developmental stages as well as provide the services listed below.

FIRST STEPS EARLY INTERVENTION - PHYSICAL THERAPY Physical therapists focus on large muscle development in order to help the child to roll over, sit, crawl, or walk.

FIRST STEPS EARLY INTERVENTION - OCCUPATIONAL THERAPY Occupational therapists focus on small muscle development, helping the child to reach, grasp toys, and play in a purposeful way.

FIRST STEPS EARLY INTERVENTION - SPEECH THERAPY Speech language pathologists help to build an early foundation for language development and communication. Feeding and swallowing

therapies can also be provided.

FIRST STEPS EARLY INTERVENTION - NUTRITION THERAPY Registered dietitians address feeding issues, dietary intake, and offer consultations with parents regarding special dietary needs.

FIRST STEPS EARLY INTERVENTION - VISION THERAPY Certified teachers of the visually impaired are available to help children work toward independence.

FIRST STEPS EARLY INTERVENTION - SPECIAL INSTRUCTION Early education specialists provide strategies to assist the child with problem solving, social skills and to promote the child's comprehension and use of language.

FIRST STEPS EARLY INTERVENTION - RESOURCE LIBRARY The agency offers a resource library including toys and assistive technology for families to borrow and reinforce skills.

PERSONAL ASSISTANCE SERVICES - PERSONAL CARE & ASSISTANCE These services may include assistance with activities of daily living such as eating, drinking, food preparation, ambulating, transfers, toileting, bladder and bowel management, bathing, dressing, grooming and self-administered medication and health maintenance activities that include dressing changes and catheter care. Qualified individuals may also be eligible for laundry, transportation, shopping and housekeeping assistance.

PERSONAL ASSISTANCE SERVICES - INDEPENDENT LIVING/COMMUNITY INTEGRATION SKILLS 'accessAbilities' provides services to assist individuals in developing and strengthening independent living skills, by providing support in reaching individual goals of increased physical and social integration in the community.

PERSONAL ASSISTANCE SERVICES - RESPITE CARE Is designed as a short-term temporary support for family caregivers, in the event of illness or absence while knowing that their family member is receiving the support and services needed to maintain their health and safety.

PERSONAL ASSISTANCE SERVICES - HOMEMAKER SERVICES FOR SENIORS (Indiana County Only) The Indiana County Home Support Program and Options Personal Care Program, in collaboration with Aging Services of Indiana County, provides assistance to eligible resident in Indiana County who are age 60 or older and need assistance to accomplish daily living tasks. The services include limited personal care services, such as bathing, laundry, light housekeeping, grocery shopping and errands. [This project is funded, in part, under a contract with the Pennsylvania Department of Aging and Aging Services, Inc.]

PERSONAL ASSISTANCE SERVICES - HOME & COMMUNITY HABILITATION This service supports individuals to acquire, maintain, or improve necessary skills for successful living in the community. The service provides support for independent living and greater productive participation in community life. Supports include basic banking & budgeting, health tips, decision making, balancing risk, fostering choice, and guidance with medical, financial and social services that assist a participant to remain involved while residing in the community.

PERSONAL ASSISTANCE SERVICES - COMPANION SERVICES Focus on health, safety and overall well-being. Services allow an individual to experience independence, personal choice and management of risk while participating in community and home activities.

Service Information

Service Area

Indiana County

Service Description

Provides services to victims/significant others of Domestic Violence, Sexual Assault, Other Crimes, and Victims of Juvenile Offenders

24-Hour Crisis Hotline: Provides around the clock support and guidance 24 hours a day, 7 days a week, 365 days a year to include weekends and holidays. Victim/survivors will receive support from a trained crisis intervention advocate or volunteer who is certified through our crisis intervention training.

Safety Planning: Serves as a primary intervention tool when working with victims/survivors, their

children, and significant others. This includes steps and options for increasing the safety of victims/survivors and preparing in advance for the possibility of future victimization.

24-Hour On-Call Advocacy: Offers victims/survivors with a skilled advocate at any hour to respond to legal, medical, and various community facilities. An advocate provides information and intervention services to victims/survivors and their significant others.

Emergency Shelter: Offers specialized short-term emergency shelter and victimization support services for victims/survivors and members of their families when in of safety. Service available to adult victims and their children, 18 years of age and under.

Legal Advocacy: Victim Advocates provide in person, non-judgmental support in a legal setting. The advocates are responsible for providing the necessary information to the victims/survivors about the legal system when making critical decision. They also ensure that the victims'/survivors' rights are upheld throughout the process and provide explanation of the legal ramifications.

Protection from Abuse Orders (PFA): The PFA order is granted from the court to provide protective "relief" to adult victims and/or children for up to three years. Victim Advocates provide support to the victims/survivors while filing the PFA. They also ensure that the victims'/survivors' rights are upheld throughout the process and provide explanation of the legal ramifications.

Sexual Violence Protection Order (SVPO)/ Protection form Intimidation (PFI) Order: SVPO's are granted from the court to provide protective "relief" to adult victims/survivors and/or children for up to three years. The PFI is granted from the court to provide "relief" to minor victims/survivors with defendants 18 years of age or older, for up to three years. Victim Advocates support the victims/survivors while filing these orders. They also ensure that the victims'/survivors' rights are upheld throughout the process and provide explanation of the legal ramifications.

Medial Advocacy: Victim Advocates provide in person, non-judgmental support in a medical setting. They are responsible for providing the necessary information and explanation to the victims/survivors about the medical system when making critical decisions. They also ensure that the victims'/survivors' rights are upheld throughout the process.

Victim Compensation Assistance Program: Victim Advocates support victims/survivors and their eligible family members by providing information and assistance to ease the financial burdens they may fave as a result of a crime.

Individual Empowerment Counseling: Counselor Advocates provide interventions that are action focused, client-centered, and trauma informed. This interaction occurs one-on-one between a trained advocate and victims/survivors or their significant others. This interaction is available to both adult and child victims/survivors, and focuses on understanding the complexities and effects of victimization. They also assist with exploring options and ways to implement strategies to overcome obstacles.

Group Empowerment Counseling: Counselor Advocates provide interventions that are action focused, client-centered, and trauma informed. This interaction occurs between a trained advocate and two or more victims/survivors and/or significant others in an informal, confidential setting. The group encourages participants to build rapport and mutual respect. This gives them the opportunity to reduce isolation and become empowered.

Prevention Education: Education Advocates provide strategies to prevent victimization by focusing on conditions that reduce violence. Primary prevention refers to behavior change. Therefore, strategies move beyond knowledge and awareness to include opportunities for audiences to learn,

practice, and adopt skills and behavior changes that create environments and cultures free from violence.

Education/Community Awareness: Education Advocates offer one time, educational/community awareness programs designed to raise an understanding of violence and victimization in our community. These programs can occur in either an academic, professional, or community setting.

Crisis Intervention Volunteer Training: Education Advocates provide an 80-hour crisis intervention training that is action focused, client-centered and trauma informed. This provides individuals with para-professional counseling skills to support victims/survivors when they are faced with crisis situations.

Available Hours

24-hours a day assistance 365 days a year

Service Description

Case Management: The goal of case management is to assist individuals to locate community resources that will enhance and enrich your quality of life. Services include: Bill paying, Establishing or managing services, In home assessment, Financial: Private Pay Assistive Technologies: Alleghenies United Cerebral Palsy provides informational resources that can assist consumers in obtaining various assistive technology devices and services. Assistive Technology or adaptive equipment can be used to alleviate the barriers that prevent individuals from living independently in the community of their choice. We are an informational resource which can assist individuals with disabilities to connect to the local and state funding resources available to Pennsylvania residents. Home Modifications/ Durable Medical Equipment: Alleghenies United Cerebral Palsy provides informational resources that can assist consumers in making their homes more accessible. We are an informational resource which can assist individuals with disabilities to connect to the local and state funding resources available for Pennsylvania residents

Working closely with the 1889 Jefferson Center for Population Health and the greater community in a Community Care HUB (HUB) for Cambria and Somerset counties. Developed by the Pathways Community HUB Institute, the HUB model aims to impact health outcomes by addressing risk factors associated with poor health outcomes. A HUB is an organized, outcome focused, network of Care Coordination Agencies (CCAs) who hire and train community health workers (CHWs) and connect at-risk individuals to needed services. The community health workers meet with participants face-to-face, preferably in their homes, then guide them through one or more of 21 Pathways designed to address their needs. The HUB model involves the collaboration of all community resources to reduce both medical and social barriers to care, like employment, housing and transportation, for individuals with complex health needs.

Community Health Worker: builds individual and community capacity by increasing health knowledge and self-sufficiency through a range of activities such as outreach, community education, informal counseling, social support and advocacy; serves as a liaison between communities and health care agencies; provides guidance and social assistance to community residents; enhances community residents' ability to effectively communicate with healthcare providers; provides culturally and linguistically appropriate health education; advocates for individual and community health; provides referral and follow-up services or otherwise coordinates care; identifies and helps enroll eligible individuals in federal, state, and local private or nonprofit health and human services programs.

Diabetes Expo

Information for people with diabetes in Indiana County

Public and patient education resources

The Association reaches millions of people annually through its information activities and awareness efforts, such as American Diabetes Alert; Diabetes Month; Wizdom Youth Zone for kids; 1-800-DIABETES (1-800-342-2383), the Association's toll-free National Call Center; the Association's Web site, diabetes.org; a monthly consumer magazine, Diabetes Forecast; outreach to communities most at risk for diabetes; and programs to help children with diabetes and their families.

Advocacy

The Association fights on behalf of the diabetes community to increase federal funding for diabetes research and programs, improve comprehensive health care and insurance coverage, and end discrimination against people with diabetes.

Founded in 1940, the Association has been funding innovative diabetes research since 1955. Through our Nationwide Research Program, we are working to find the cure for diabetes and prevent its many health problems.

ADA Diabetes Camp is held at Camp Soles owned by the YMCA located in Rockwood, PA. Camp Soles is accredited by the American Camp Association. Camp Soles is a 263 acre YMCA resident camp in the Laurel Highland Mountains of southwestern Pennsylvania. Rockwood, PA is about 65 miles south of Pittsburgh. The Camp has an 18 acre manmade lake, Lake Tris, ideal for swimming, canoeing, kayaking and sailing. The Camp grounds have camper cabins, staff lodging, Shaw Lodge, rustic dining hall, recreational hall, climbing wall, ball fields, basketball and volleyball courts, arts & crafts center, and nature hike paths. Medical staff and counselors strive to make the camp a home away from home. The camp experience one which teaches techniques for managing nutrition, exercise and medications. This camp experience is complimented by the YMCA's values of instilling caring, honesty, respect and responsibility. The recreational activities, food service, and some camper supervision support for the American Diabetes Association's Diabetes Camp program are provided under contract by Camp Soles owned by the YMCA. American Lung Association in Pennsylvania

ALA

Organizational Information

Parent Organization

American Lung Association of Mid-Atlantic

Vision, Mission and/or Purpose of Organization

The mission of the American Lung Association is to prevent lung disease and promote lung health.

History of Organization

For 100 years the American Lung Association has been fighting for the lung health of all Americans. We started in 1904 when the National Association for the Study and Prevention of Tuberculosis, the first nationwide, voluntary health organization aimed at conquering a specific disease, was founded.

1907 Dr. Joseph Wales, realizing that the small sanatorium on the Brandywine River in Delaware where he worked was down to its last dollar, wrote to his cousin, Emily Bissell, asking for help in raising the \$300 he and his fellow physicians needed to keep the sanatorium open. In response, Emily Bissell designed the first American Christmas Seal and borrowed \$40 to have 50,000 of them printed. Before the Christmas season was over she had raised not the \$300 she had for but \$3000.

1920 The National Association embarked on a research program that was to become truly significant in its scope and influence. Representative of the myriad of scientific refinements and improvements were those affecting the X-ray and tuberculin test. 1930 to 1940s The tuberculin test and the X-ray became twin tools of diagnosis. The tuberculosis associations, joined with health departments and the U.S. Public Health Services, bought and took them to where people were in order to conduct testing and education. 1956 The National Tuberculosis Association, finding it increasingly difficult to concentrate on the eradication of tuberculosis without paying attention to such related illnesses as asthma, chronic bronchitis, emphysema and many other respiratory diseases, expanded its education and program goals to include all lung disease and the elimination of the causes of these diseases. 1960 The National Association Board of Directors issued a warning on smoking as a policy statement: "Cigarette smoking is a major cause of lung cancer." The National Association funded six pilot projects in mass pulmonary function screening to determine whether lung disease could be detected early. 1963 to 1964 The National Association launched its Respiratory Disease Campaign to educate the public, especially those over 40, about symptoms of chronic respiratory disease. The National Association and its affiliates encouraged the establishment of "Action for Clean Air Committees" and supported proposed Congressional action to improve control. 1968 The name of the organization is changed to National Tuberculosis and Respiratory Disease. The board strengthened 1960 smoking statement and urged local associations "to develop and sponsor an active program to prevent young people from becoming smokers, and to convince smokers that they should stop smoking." 1973 The National Tuberculosis and Respiratory Disease Association changed its name to the American Lung Association (ALA). 1975 ALA established nonsmoker's rights as a major program priority. 1977 ALA became a smoke-free organization. 1987 ALA led the successful campaign for the landmark law banning smoking on all U.S. domestic airline flights lasting 2 hours or less. 1990 ALA played a key role in adoption of the significant Clean Air Act Amendments of 1990*the first air pollution law passed in more than 10 years. 1997 ALA was the first and foremost national voluntary health agency to speak out against special legal protections for the tobacco industry and against the 1997 deal between the Attorneys General and the tobacco industry.

American Red Cross Chestnut Ridge Chapter

Organizational Information

Parent Organization

American National Red Cross

Vision, Mission and/or Purpose of Organization

Mission: The American Red Cross prevents and alleviates human suffering in the face of emergencies by mobilizing the power of volunteers and the generosity of donors. Vision Statement: The American Red Cross, through its strong network of volunteers, donors and partners, is always there in times of need. We aspire to turn compassion into action so that... ..all people affected by disaster across the country and around the world receive care, shelter and hope; ...our communities are ready and prepared for disasters; ...everyone in our country has access to safe, lifesaving blood and blood products; ...all members of our armed services and their families find support and comfort whenever needed; and ...in an emergency, there are always trained individuals nearby, ready to use their Red Cross skills to save lives.

History of Organization

As one of the nation's premier humanitarian organizations, the American Red Cross is dedicated to helping people in need throughout the United States and, in association with other Red Cross networks, throughout the world. We depend on the many generous contributions of time, blood, and money from the American public to support our lifesaving services and programs. Clara Barton and a circle of her acquaintances founded the American Red Cross in Washington, D.C. on May 21, 1881. Barton first heard of the Swiss-inspired global Red Cross network while visiting Europe following the Civil War. Returning home, she campaigned for an American Red Cross and for ratification of the Geneva Convention protecting the war-injured, which the United States ratified in 1882. Barton led the Red Cross for 23 years, during which time we conducted our first domestic and overseas disaster relief efforts, aided the United States military during the Spanish-American War, and campaigned successfully for the inclusion of peacetime relief work as part of the global Red Cross network, the so-called "American Amendment," that initially met with some resistance in Europe. The Red Cross received our first congressional charter in 1900 and a second in 1905, the year after Barton resigned from the organization. This charter, which remains in effect today, sets forth the purposes of the organization which include giving relief to and serving as a medium of communication between members of the American armed forces and their families and providing national and international disaster relief and mitigation. Prior to the First World War, the Red Cross introduced its first aid, water safety, and public health nursing programs. With the outbreak of war, the organization experienced phenomenal growth. The number of local chapters jumped from 107 in 1914 to 3,864 in 1918 and membership grew from 17,000 to over 20 million adult and 11 million Junior Red Cross members. The public contributed \$400 million in funds and material to support Red Cross programs, including those for American and Allied forces and civilian refugees. The Red Cross staffed hospitals and ambulance companies and recruited 20,000 registered nurses to serve the military. Additional Red Cross nurses came forward to combat the worldwide influenza epidemic of 1918. After the war, the Red Cross focused on service to veterans and enhanced our programs in safety training, accident prevention, home care for the sick, and nutrition education. We also provided relief for victims of such major disasters as the Mississippi River floods in 1927 and severe drought and the Depression during the 1930s. The Second World War called upon the Red Cross to provide extensive services once again to the U.S. military, Allies, and civilian war victims. We enrolled more than 104,000 nurses for military service, prepared 27 million packages for American and Allied prisoners of war, and shipped over 300,000 tons of supplies overseas. At the military's request, the Red Cross also initiated a national blood program that collected 13.3 million pints of blood for use by the armed forces. After World War II, the Red

Cross introduced the first nationwide civilian blood program that now supplies more than 40 percent of the blood and blood products in this country. During the 1990s, we engineered a massive modernization of our blood services operations to improve the safety of our blood products. We continued to provide services to members of the armed forces and their families, including during the Korean, Vietnam, and Gulf wars. The Red Cross also expanded our services into such fields as civil defense, CPR/AED training, HIV/AIDS education, and the provision of emotional care and support in the wake of disasters. Since 2006, the Red Cross and FEMA have worked together helping government agencies and community organizations plan, coordinate and provide feeding, sheltering and family reunification services for people affected by disasters. Today, the supporters, volunteers and employees of the American Red Cross provide compassionate care in five critical areas: People affected by disasters in America Support for members of the military and their families Blood collection, processing and distribution Health and safety education and training International relief and development

Service Information

Service Area

Armstrong, Indiana & Clarion Counties as well as Northern, Central & Western PA

Service Description

This service is a variable length inpatient program for adults with alcohol and other drug problems. The program consists of individual and group therapy, medical and nutritional services, life skills training, relapse prevention, and twelve step recovery meetings.

24 hour crisis intervention program by phone or drop-in

Variable length, up to 28 days, residential program for persons with a drug or alcohol problem

Outpatient Individual and Group Services for substance use treatment

Partial hospitalization program for drug and alcohol abusers

Intensive Outpatient program for substance abusers

Nurse Navigator and Certified Recovery Specialist Outreach Program, a collaboration between the Armstrong-Indiana-Clarion Drug & Alcohol Commission, ARC Manor, and the Armstrong County Memorial Hospital and is intended to enhance rural physical and behavioral health care service delivery. Objectives are to improve client's perception of their overall health & wellness; improve client's coping strategies and symptom management; improve communication with their physicians and treatment providers; and reduce the number of emergency room visits and hospitalization.

Available Hours

24 hour service availability

Fees/Cost for Services

All fees are on a sliding fee scale based on ability to pay

Eligibility Requirements

Residential - Anyone who is 18 years or older and has a drug or alcohol problem. Partial

Hospitalization Program - Anyone who is 18 years or older and has a drug or alcohol problem.

Intensive Outpatient Program - anyone 18 or older with a drug or alcohol problem. Out-patient

Program - Anyone with a drug or alcohol problem and their family members. Anyone may use the crisis intervention program.

ARIN Intermediate Unit 28, Adult Education

ARIN Center for Education

Organizational Information

Parent Organization

ARIN Intermediate Unit 28

Vision, Mission and/or Purpose of Organization

ARIN IU 28 Center for Education provides a variety of educational services for adults in Armstrong and Indiana Counties. Offerings include: Adult Basic Education (ABE), GED/HiSET Test Preparation, HiSET Testing Center, English as a Second Language (ESL) for adults, one-to-one and small group tutoring and workforce education. ARIN Center for Education is an integral part of ARIN IU 28, dedicated to providing quality educational services to learners of all ages.

Funding Sources

ARIN operates on a \$26.0 million budget. Funding is from various local, state and federal sources. In most cases, the budgets are built on allocations or competitive grants received from the Pennsylvania Department of Education (PDE) and elsewhere. ARIN's cooperative-based programs and consortia give districts and communities access to quality alternatives that might otherwise be too costly for a single district.

Better Business Bureau of Western Pennsylvania

BBB

Organizational Information

Vision, Mission and/or Purpose of Organization

For more than 100 years, the Better Business Bureau has been helping people find businesses, brands and charities they can trust. In 2021, people turned to BBB more than 195 million times for BBB Business Profiles on nearly 5.8 million businesses and Charity Reports on 11,000 charities, all available for free at BBB.org. Our Vision: -An ethical marketplace where buyers and sellers can trust each other. BBB's mission is to be the leader in advancing marketplace trust. We do this by: -Setting standards for marketplace trust -Encouraging and supporting best practices by engaging with and educating consumers and businesses -Celebrating marketplace role models -Calling out and addressing substandard marketplace behavior -Creating a community of trustworthy businesses and charities

History of Organization

The first Better Business Bureau was founded in 1912. In 1931 the business community of Western Pennsylvania established a nonprofit organization called the Better Business Bureau (BBB) to promote ethical standards of business practices through voluntary self-regulation.

Accreditations and Licenses

BBB sets standards for ethical business behavior and monitors compliance. Almost 400,000 Accredited Businesses meet and commit to our high standards. Our Standards of Accreditation are built on our BBB Standards for Trust. The BBB Standards for Trust, eight principles that summarize important elements of creating and maintaining trust in business, are a comprehensive set of best practices for how businesses should treat the public in a fair and honest manner. Businesses with a good marketplace track record, including maintaining a B or better rating, may apply at bbb.org to become a BBB Accredited Business .

Affiliations

The Better Business Bureau brand is represented by national and international non-profit organizations: The International Association of Better Business Bureaus (BBB.org) represents the local, independent BBBs that serve every community in the United States, most of Canada, and a growing number of locations in Mexico. Its foundation is the BBB Institute for Marketplace Trust (BBBMarketplaceTrust.org). BBB Wise Giving Alliance (Give.org) helps donors make informed giving decisions and promotes high standards of conduct among organizations that solicit contributions from the public.

Service Information

Service Area

The Better Business Bureau serves all of Western Pennsylvania, including Indiana County and the other 27 counties. Access to the rest of North America can be found at our website at bbb.org or by calling 877-267-5222.

Service Description

The BBB provides reports on businesses that will be helpful to consumers before making a purchase decision. The BBB system responds to millions of inquiries each year about businesses, provides information about charitable organizations, helps resolve disputes with consumers and businesses through conciliation, mediation and arbitration, and promotes ethical business standards and voluntary self-regulation of business practices.

The services provided by BBB can make you a better informed and more satisfied consumer. Your BBB helps consumers by: "Providing information about a company (non-accredited & accredited) before doing business with it. "Helping to resolve a complaint you might have against a firm. "Providing consumer information so that you can make educated buying decisions. "Fostering ethical advertising and selling practices. "Alerting consumers to questionable business and advertising practices when the business in question will not cooperate with the BBB to eliminate abuse. "Disseminating consumer information through newspapers, radio, television, and printed literature. "Cooperating with law enforcement and regulatory agencies to deal with businesses not responding to self-regulation. "Providing speakers to civic groups and business organizations. "Providing the media with public information materials on consumer subjects. Most consumer contacts with the BBB are pre-purchase inquiries (checking out a company) BEFORE dealing with an unknown company. Such inquiries reduce the possibility of complaints arising. Information given to consumers is based upon the BBB's record on a company. The BBB business review is a summary of the actual performance record and complaint history of the business as reflected in the

BBB files.

Available Hours

Monday thru Friday our office hours are 8:30 AM - 4:30 PM. Operators are available between 8:30 AM - 3:30 PM with all services available 24/7 on the website.

Service Information

Service Area

Indiana County

Service Description

Big Hearts Little Hands seeks to establish ongoing group activities and programs to provide additional services to these children as well as those on the waiting list and in alternative programs.

This support is primarily a one-to-one relationship between a child and the adult volunteer through

frequent and regular interactions with the child.

Big Hearts Little Hands offers services to foster caring, competence, and confidence through emotional, social, cultural, and educational support for children between six and sixteen years of age.

BHLH is collaborating with Highmark to offer KidShape, a national recognized family based weight management program. The nine week program is for families with overweight children ages 6 to 14. The program helps children and their families through better nutrition, increased physical activity, and improved self esteem.

Available Hours

9:00 am - 5:00 pm / Monday through Friday
Answering machine available

Fees/Cost for Services

None

Eligibility Requirements

The child must be between the ages of six and sixteen, reside in Indiana County, and be in need of additional support from a mentor and able to benefit from a one-to-one relationship with a caring adult volunteer. A volunteer must be 18 or older and a resident of Indiana County. Volunteers must attend Big Brothers Big Sisters training and secure Act 33 and Act 34 clearances.

Required Documentation

Volunteers to work with children must be able to acquire ACT 31 ACT 32 clearances for child abuse and criminal record. Proof of residence in PA. Provide three professional references. Volunteers to work in the office are also accepted.

How to Access Services or Schedule Appointments

To access services call Big Hearts Little Hands office at 724-463-9622

Boy Scouts Of America / Laurel Highlands Council

LHC-BSA

Organizational Information

Vision, Mission and/or Purpose of Organization

It is the mission of the Laurel Highlands Council BSA to make available the resources of the Boy Scouts of America to the greatest number of youth. We will work with Chartered Partners, community resources, and dedicated volunteers to enable youth to participate fully in quality Scouting programs. Through this participation we will develop confident citizens with positive life skills, unity of purpose, foster parental involvement with their children, and develop adult leadership. We will strengthen Charter Partner responsibility (ownership of units) to help ensure all youth have access to quality Scouting programs.

Volunteer Description

Volunteer opportunities vary. We have opportunities to fit every generation and your availability to serve. Volunteers help us deliver Scouting programs to local youth in your community. Some help us maintain our camps and some experienced volunteers help coach and guide other Scouting volunteers in a myriad of responsibilities. Volunteerism in the Boy Scouts of America requires approval by local decision makers, but welcomes anyone with an interest to apply. For more information on volunteer opportunities within the Boy Scouts of America, visit www.beAscout.org or call us at 814-471-1090.

Breathe Pennsylvania

Organizational Information

Vision, Mission and/or Purpose of Organization

Breathe Pennsylvania helps western Pennsylvanians breathe better and live healthier. We have been dedicated to the prevention and control of lung disease in western Pennsylvania since 1904. Through our programs and services, we educate and assist local residents who suffer from respiratory ailments such as asthma or COPD, provide information and resources to health care professionals, and offer preventative lung health and smoking cessation resources. In addition, we provide tuberculosis and sleep apnea education programs.

History of Organization

Breathe Pennsylvania has established a rich history of promoting lung health in the community. From our early days as an organization that helped fight tuberculosis in the region, to our evolution into an organization that offers programs to people with asthma, chronic lung disease, or who may be looking to quit smoking, Breathe Pennsylvania has the ability to assist anyone wishing to learn more about their lungs and how to keep them healthy.

Burrell Township Library

BTL

Organizational Information

Vision, Mission and/or Purpose of Organization

Mission Statement: Building strong connections between our patrons and the world!

History of Organization

Burrell Township Library started out as a house library. In September 1977, it became a reading room on Main street across from the Black Lick Fire Hall through the Community Development Corporation. Various leaders stepped forward and enabled the library to meet the evolving needs of the community. Edward Augsburger took on the original library director role. As services and items outgrew the space, librarian Louise Krajic ushered in a new location at 190 Park Drive in 1991. In early 2018, Burrell Township Library suffered devastating damage to their building. The library had a temporary home as of September 5th, 2019 inside the building of the Burrell Township Supervisors. Finally, Burrell Township Library moved to its permanent home on August 11, 2023 at 120 Blaire Road in Black Lick, PA. The library has been serving the community for over 40 years. As the library continues to change and grow, it will continue to serve and reflect the community around it.

Camp Orenda

Organizational Information

Parent Organization

Lions Club 14 J

Vision, Mission and/or Purpose of Organization

Camp Orenda is a residential summer health camp for persons with disabilities. Accommodating 25-30 individuals with disabilities for each of its 3 sessions, Camp Orenda offers a fun-filled week that challenges its campers physically, emotionally and socially. It's a home away from home and a time that is treasured and anticipated throughout the year!

History of Organization

Camp Orenda was founded in 1968 by Dr. Mary McGruder as a health camp for underprivileged children. Throughout the years, with great devotion by P.D.G. Lion Glenn Brant it has remained an integrated part of Indiana County as a health camp for people with disabilities. Many of our current campers are as old as the camp itself and would be more than happy to share their stories and memories with you.

Chevy Chase Community Center

Chevy Chase Center

Organizational Information

Vision, Mission and/or Purpose of Organization

The Chevy Chase Community Center's Mission is to cultivate, nurture, and sustain a peaceful and inclusive culture that brings community together with positivity, diversity, inclusion, education, nutrition, and love.

History of Organization

In September 1969, a community of concerned citizens who wanted to combat poverty and assist Indiana County residents in need established the Chevy Chase Community Action Council, Inc. After the CCCAC was incorporated as a tax-exempt, non-profit organization, the group launched a fundraiser to build a community center. Their vision soon became a reality, when in 1971 the Chevy Chase Community Center was constructed with assistance from the United States Army Corps of Engineers. Since that time, the CCCAC vision has never wavered in its commitment as members of the greater Indiana community come together, always striving to provide services in response to the needs of the community, as they arise. In 2000, the Center was renovated and rededicated to the community with a grant from the Indiana County Commissioners. Today, CCCAC continues to be a place where the residents of Indiana County come together to make life better for all.

Citizens' Ambulance Service

CAS

Organizational Information

Parent Organization

Ambulance Service Management Corporation

Vision, Mission and/or Purpose of Organization

To respond to all legitimate requests for care without regard to race, color, creed, national origin or ability to pay. To make safety a watchword while providing expeditious medical care and transport to all individuals. Each patient will be treated with compassion, respect and dignity. To donate service to individuals who demonstrate an inability to pay.

History of Organization

Citizens' Ambulance Service was established in 1964 as a non-profit corporation. It began operations in January of 1965 with only one ambulance, a 1964 Cadillac. The 12 member Executive Board is responsible for the operation of Citizens' Ambulance on behalf of its' 8,400 members. A 57 member advisory board meets annually and serves on committees. The present service area had two periods of expansion. In 1969, the boundaries were expanded from 10 to 15 miles. In 1975, Indiana Hospital donated \$75,000 to help expand the ambulance services further to a countywide service with the help of matching funds from a Highway Safety grant program. In 1984, S.W. Jack raised enough funds to build what now houses Citizens' biggest station and office. Today, Indiana County is the only county in PA with a single emergency ambulance service covering the entire county. Plumville station was built in 1978, Hillsdale in 1979, Armagh operation were housed in the local fire department building until 2005, when they were moved to a building built by the Clyde fire department in Wheatfield. The Elderton station was completed in April, 1999. There are a total of 6 stations with 12 ambulances. Mr. Jerry Esposito was the first manager for CAS. He developed a membership service for the ambulance company with the help of the Junior Women's Civic Club going door to door for solicitations. Citizens' Ambulance first operated out of the home of Hazel Burnsworth on Wayne Avenue. She acted as a mother to the drivers and technicians. She and her son, Gary, answered most of the phone calls for the new company. Citizens' was one of the first ambulance companies to require certification for Emergency Medical Technicians, added direct radio communications between ambulances and the hospital emergency room, and set up working relationships with helicopter and other ambulance services. These dedicated college students were paid \$2 each ambulance trip. The cost of the ambulances ran about \$15,000 compared to the current cost of \$130,000. Citizens' was the first U.S. A service to use vehicles that met the U.S. Department of Transportation proposed standards of vehicle design. Citizens' was the first PA service to successfully defibrillate a person in clinical death from a heart attack, and one of the first to dispatch a paramedic with every emergency call. In 1972, Citizens' was the first in the U.S. to start the Immediate Response Personnel program using trained volunteers to perform routine life-saving measures in the locality of the emergency. Citizens' was also involved with Dr. Nancy Caroline in developing training curriculum and standards for the crews. With Dr. Peter Safar, Mr. Esposito redesigned the ambulance to the shape and function that is known today. CAS service area is about 1000 square miles, with Advanced Life Support in all but one unit which functions as a Basic Life Support transport unit. There is a Transport Van Service with 8 vans. Citizen's Ambulance Service employs approximately 174 full and part time personnel.

Service Information

Service Area

Indiana, Cambria, Clarion, Clearfield, and Jefferson Counties. Parts of Armstrong and

Westmoreland Counties.

Service Description

Psychiatric Services: Comprehensive psychiatric services, include diagnostic evaluations, psychotherapy, medication management, and group therapy. Psych services are performed by board-certified psychiatrists, certified registered nurse practitioners, physician assistants, and other specially trained mental health workers.

Outpatient Therapy: Outpatient care involves mental health services that do not require a prolonged stay in a facility. Trauma-informed psychotherapy provided in our outpatient programs helps consumers cope with stressors, manage their mental health, and recover. These services can include counseling, individual and group therapy, and psychiatry.

School-Based Outpatient Therapy: The School-Based Outpatient Therapy program provides traditional outpatient therapeutic services for children and adolescents in their school environment. CGC offers the service year-long, whereby therapy treatment continues in the outpatient setting when school is not in session.

Family-Based Therapy: Our Family Based Program helps children and adolescents with emotional or behavioral problems receive comprehensive in-home services. Family-Based includes family therapy in which all family members are encouraged to participate in achieving desired changes. Additionally, CGC offers Family Support Services if requested. This value-add service assists the family in identifying/accessing services and activities that could help promote positive changes. We provide crisis services 24 hours a day, seven days a week, to our consumers.

Adult Partial Hospitalization Program: The Adult Partial Hospitalization Program is an in-person group therapy program for those discharged from the hospital or requiring more intensive treatment. Additionally, there is a collaboration with family and others involved in treatment.

Adult Partial offers two levels of care, Sub-Acute, and Acute. Sub-Acute Partial Hospitalization meets 3 days a week, 6 hours a day, and provides group therapy focused on many topics. Designed for an individual with the highest hospitalization risk, Acute Partial meets 5 days a week, 6 hours a day. The program pays special attention to Personal Medication Management, Education, Illness Management, and Recovery. Also incorporated into the program are psychiatric services.

Child and Adolescent Partial Hospitalization Program: ALPHA is an on-site program designed to provide extra therapeutic support for students struggling with mental health while enrolling in our academic curriculum. Mental health programming includes both psychotherapy and psychiatric services. The program is open to students with a mental health diagnosis in grades K-12.

ALPHA is a year-round mental health program. The home-based school district provides curriculum and can generally arrange transportation for the student throughout the academic year, while public transportation or family ride sharing is coordinated during the summer months.

Case Management and Resource Coordination: The Case Management program is designed to assist adults or children (and their families) diagnosed with a severe mental illness or emotional disturbance. The primary objective is to help the consumer access resources and services that will allow them to achieve individually identified goals.

Case Management is an outreach program to provide the necessary support to enable the consumer in a variety of areas, such as independence of living (housing, utilities, food, transportation), natural supports (social activities), educational and vocational pursuits (GED, job training), and community tenure (PCP, therapist, psychiatrist, respite).

Developmental Disabilities Unit: The Developmental Disabilities unit offers a wide range of services to individuals with intellectual disabilities as well as to their families and caregivers. Professionally trained Supports Coordinators assist individuals and families in obtaining services that are needed to meet basic needs and enhance independence.

To be eligible for services from the Developmental Disabilities Unit an individual must have:
Documented diagnosis of intellectual disability (IQ

Early Intervention Unit: The Early Intervention Program provides services to children aged birth to three years who have or are at risk for developmental delays. The program is a family-focused/family-centered delivery system. Based upon the child's strengths, concerns, priorities, and resources identified by the family, services are customized and rendered accordingly.

The Early Intervention Service Coordinators will: Help parents identify their goals for their children and themselves; establish and maintain links among resources, services, and supports; document and track delivery of services evaluate how these services meet the family goals, and advocate on behalf of the child and their family. This service accompanies a commitment to growth and change to encourage hope in the future.

Psychiatric Rehabilitation: Psychiatric Rehabilitation is a voluntary, non-clinical adult program designed to promote recovery for people with psychiatric disabilities. The program offers on-site group sessions in the domains of living, learning, social, vocation, and education. Additionally, Psych Rehab works closely with consumers in the following areas: skills building, community resources, daily living activities, job preparation /communication, nutrition, healthy living, and socialization.

Drug and Alcohol Use Disorder Programming: This D&A program is provided by CGC in Cambria, Clearfield, and Jefferson Counties. The program utilizes evidence-based therapeutic approaches in outpatient and intensive outpatient settings and can include individual, group, and family-inclusion therapy scenarios. Additional components include aftercare planning and recovery support services.

Base Service Unit (BSU): The Base Service Unit is an Indiana County program providing psychosocial evaluations and service management coordination within the Indiana County provider network.

The Intake Department serves as the point of entry for mental health and developmental disability services and provides a comprehensive plan for needed services for each consumer entering the Center.

Individuals seeking services may be seen in the Base Service Unit on either a walk-in basis, during available hours, or may call to schedule an appointment for an intake.

Available Hours

8:00 am - 8:00 pm / Monday through Thursday; 8:00 am - 5:00 pm / Friday (Main Office)

Fees/Cost for Services

Most major medical insurance plans accepted, as well as medical assistance, Medicare, and self-pay. Financial assistance may be available to those who qualify.

Service Information

Service Description

Individualized motivational enhancement therapy sessions coupled with specialized groups such as cognitive restructuring

An evidence based cognitive/behavioral approach to treatment rooted in a 12-step recovery model.

The program includes community participation, individual, group, and family therapy sessions to address the client's awareness of addiction, acceptance, motivation for after care planning.

Conewago Indiana utilizes a modified therapeutic community approach which focuses on making clients ultimately responsible for their own recovery. The community method philosophy addresses peer support and emphasizes the value of working together to achieve long term success.

Evergreen After School Club

EASC

Organizational Information

Parent Organization

N/A

Vision, Mission and/or Purpose of Organization

Our mission: to serve all youth in Indiana County through Evergreen After School Club's core programs: Character & Leadership Development; Education & Career Development; Health & Life Skills; The Arts; and Sports, Fitness & Recreation. Evergreen operates before/after and summer programming for children in grades K-12 in the following school districts: Homer-Center, Penns Manor, United, and Indiana

History of Organization

In 2002, the Children's Advisory Commission in conjunction with Indiana County Department of Human Services, conducted the "Indiana County Speaks Up" survey. As a result of the survey data, in 2003, the Children's Advisory Commission of Indiana County (CAC) appointed and charged an ad hoc committee, (Youth Priorities Workgroup) to research viable solutions to meet the rural communities' expressed concerns and needs. By 2004, after an intense, nation-wide search of youth-serving organizations, the committee determined that Boys & Girls Clubs of America programs best met the needs identified by rural Indiana County residents and formed Evergreen Boys & Girls Club (EBGC). To solidify the relationship with Boys & Girls Clubs of America, Evergreen Boys & Girls Club formally affiliated with the Pittsburgh-based, Boys & Girls Clubs of Western Pennsylvania. EGBC opened it's doors in the summer of 2005 and. The organization serves annually between 1,000 - 1500 youth in grades K-12 in Indiana County. In 2018 The organization relinquished it affiliation with the Boys and Girls Clubs of America reflecting a change to its current name Evergreen After School Club.

Family Promise of Indiana County

Organizational Information

Parent Organization

Family Promise

Vision, Mission and/or Purpose of Organization

Family Promise of Indiana County is a non profit organization committed to helping low-income families achieve lasting independence. Family Promise brings the faith community together to help families regain their independence and their dignity. It offers volunteers of all faiths an opportunity to help reduce homelessness and transforms lives.

History of Organization

HISTORY OF FAMILY PROMISE OF INDIANA COUNTY, INC. According to the 2010 Census, Indiana County, Pennsylvania, has a population of 88,880 and one shelter for homeless individuals. The shelter ("Pathways") is located in the town of Black Lick and has a 14 bed capacity. However, due to space constraints, Pathways can only provide services to one family at a time. In the winter of 2009-2010, it became known that at least 2 families were sleeping in their cars during the winter and one of those families had a new born baby. In response to this need, a series of Community Meetings were held over the summer and fall of 2010. The agenda for the community meetings was to increase awareness of the problem of homelessness in Indiana County and to present the Interfaith Hospitality Network as a way to respond to this problem. At the community meeting on August 17, 2010, Michele Faught the Director at Pathways presented a "Statement of Need", indicating Indiana County was experiencing an increase in people being homeless, especially families. An Interfaith Hospitality Network develops through the leadership and commitment of members in the community. Committees to work on the different aspects of developing a Network began in September 2010. A Host Church Recruiting Committee was formed to recruit thirteen Host Congregations. A Day Center Committee was formed to begin looking for an existing facility that had the resources to house the Day Center. The Fundraising Committee worked on estimating the first year's expenses, establishing a budget and developing and implementing a fund raising plan. The Transportation Committee explored the most reliable and cost-effective transportation options for transporting families from the Day Center to the Host Congregations. The Core Committee guided the work of the other committees, developed the Network's governing body, formed the Network into a nonprofit organization, began the search for a Network Director and evolved into the Board of Trustees. In October 2010, the Core Committee adopted the Articles of Incorporation as prepared by Ross & Ross, Attorneys at Law. In addition, Board Officers were elected; President-Mike McElhaney, Vice President-Chad Jestes, Jeff Mack, Treasurer, Donna Overdorff and Doris McAnulty, co-Secretaries. A final Community Meeting was held at Church of the Nazarene in Homer City on November 16, 2010. At this meeting representatives from the National Organization Interfaith Hospitality Network attended and presented the Family Promise model for assisting families to develop sustainable independence. November 2010 the First Covenant Agreement to serve as a Host Congregation was signed and submitted to the Core Committee. This became the springboard for publicity to advertise that churches were committing to this new ministry. In January 2011, the Indiana Gazette publicized the Network's first article, making reference to the first Covenant Agreement being turned in. In February 2011, the IRS approved Family Promise of Indiana County, Inc. as a 501(c) (3) Tax Exempt entity and issues a certificate. In the winter 2011, components of the network were coming together. The Core Committee that had developed the Network disbanded and a working, decision making Board was formed. Pastor Michael Fischer was elected Vice President of the Board when Chad Jestes moved out of the area. In July of 2011, Family Promise became a Network Affiliate of the Interfaith Hospitality Network. A few more Host Congregations were needed and in August 2011 a lunch

meeting with the Board and the clergy of the potential host congregations was held. As a result, fourteen Host Congregations signed Covenants to be part of Family Promise. The first major fund raising event was held in September 2011. Family Promise of Indiana County and Pathways Shelter in Black lick were the beneficiaries of monies raised in the Run for Shelter, a 5K race/walk held on the Hoodlebug Trail. In September of 2011, a Letter of Agreement was signed between Covenant Way Church and Family Promise of Indiana County to house the Day Center on the ground level of Covenant Way Church. Plans were developed to remodel a bathroom into a shower room and to install a laundry area. An agreement was made with the Church of the Resurrection to use their 14-passenger van to transport the Family Promise Guests. In September of 2011, with all other components of the Network in place, the Board began recruiting efforts for the position of Network Director. In November of 2011, Carole Reed was hired as the Network Director. November 19-21, 2011, the Director of the Midwest Region of the Interfaith Hospitality Network, Elizabeth Tore trained the Board, Network Director, Host Coordinators and the initial group of volunteers. The first family (pregnant mother with 3 children) was accepted into Family Promise December 21, 2012 and the first congregation to host was Grace United Methodist Church. Until the Shower Room could be completed, the YMCA gave Family Promise Guests access to the showers at their facility. Families were transported by the Network Director to the Laundromat once a week until the laundry area could be completed. By the Open House on February 19, 2012, the Shower Room and the Laundry area in the Day Center were completed. In the Fall of 2012, we were able to add a Transitional Housing component to our services. Families can move into one of our houses and continue practicing the skills they need for independent living. Families in this program still participate in our case management services.

Service Information

Service Area

Indiana County and surrounding counties

Service Description

The program helps homeless children and their families.

Family Promise of Indiana County provides shelter, hospitality and case management services to their Guests.

Family Promise provides transitional housing for qualified families in Indiana County.

Family Promise provides shelter, meals and case management to homeless children and their families

MISSION STATEMENT

To provide low income and underemployed individuals an opportunity to purchase non -food items for a reduced price so they can use their cash resources to pay their rent and utilities, therefore aiding their ability to maintain independent living.

Who is eligible?

Anyone who receives cash assistance, medical assistance or food stamps

Anyone who receives SSI or SSD

Anyone who receives WIC benefits

Anyone who is only employed part time

Anyone who works for minimum wage

Anyone who receives subsidized housing or a Section 8 Voucher

Anyone who has been in a shelter within the past 12 months

POPP's Cafe-Homeless prevention program.

Services Available

• Case management to assist with resume development, job search, and budgeting

• Referrals to other community resources

• Life Skill Training

• Access to a computer and the internet at POPP's Cafe, where refreshments are free

• Conflict mediation with landlords or housemates where families are staying

• As funding is available, financial assistance for rent, utilities, car repairs, bus passes or other things related to housing stability

• Credit repair support

• Beyond Shelter Store access for use or job training as appropriate.

• A Volunteer Mentor who will provide support with money management

ELIGIBILITY CRITERIA

“ Someone whose permanent housing is in jeopardy due to unpaid rent or utilities or some other circumstances.

“ Someone who is not a sex offender.

“ Be willing to meet with a case manager to complete a needs assessment and a goal plan

“ Be willing to attend a Financial Literacy Workshop, currently being provided via ZOOM.

“ Be willing to have contact with case manager at 3, 6 & 12 months after leaving POPP.

Financial Literacy Collaboration

MISSION STATEMENT

Clients will practice behaviors that ensure long term financial stability.

Goals of The Financial Literacy Collaboration

“ Clients will have increased understanding of the value of learning financial literacy

“ Clients will increase their knowledge of money management

“ Clients will receive a certificate upon completion of the Workshop

“ There will be a reduction in the number of terminations from housing programs due to unpaid rent and utilities

“ There will be reduced recidivism in clients needing financial assistance

“ Reduce duplication of services among agencies

Available Hours

Family Psychological Associates

Organizational Information

Vision, Mission and/or Purpose of Organization

Family Psychological Associates in conjunction with Kids Count provides the highest quality psychiatric and psychological services to children, adolescents, adults and geriatric patients in a contemporary clinical milieu. As a group of highly trained, multidisciplinary mental health professionals continually striving for excellence, we focus not only on the process and outcome of treatment, but also on providing education and consultation to professional and lay communities and conducting research. Thereby, we enhance knowledge in the fields of Psychiatry and Psychology. As an integral part of the community, we are professionals dedicated to the prevention, diagnosis and treatment of mental illness in a caring and compassionate environment, and to the improvement of the quality of life for individuals and their families.

History of Organization

For over a decade, Family Psychological Associates has been serving the Allegheny, Armstrong, Butler, Clarion and Indiana counties.

Accreditations and Licenses

We are licensed with the Office of Mental Health and Substance Abuse (OHMSAS). We are also credentialed with Value Behavioral Health and Community Care Behavioral Health (CCBH). We also accept most commercial insurances.

Glade Run Lutheran Services

Glade Run

Organizational Information

Vision, Mission and/or Purpose of Organization

Mission: Founded in faith and grounded in excellence, we empower individuals to experience personal wellness and growth. Vision: To evolve our continuum of program offerings to meet the changing needs in education and social services, achieve positive impacts in the lives of those we serve through continuous quality initiatives, and to model our values through leadership and innovation.

History of Organization

Founded in 1854 as the Orphan's Home and Farm School by Rev. Dr. William Passavant, today Glade Run serves individuals and families throughout Western PA with innovative and impactful mental health, educational, developmental disability, community monitoring, housing support, and unique therapeutic offerings including animal and horticulture therapy.

Helpmates, Inc. Home Care Agency

Helpmates, Inc.

Organizational Information

Parent Organization

Helpmates, Inc.

Vision, Mission and/or Purpose of Organization

The MISSION of Helpmates, Inc. is to meet the needs of the individual by providing person centered, supportive services in their home or greater community to foster independence, self determination and to meet the demands of everyday living with the greatest opportunity for recovery. Therefore, Helpmates, Inc. and its divisions are dedicated to provide safe and cost effective delivery of quality services in the home or community to individuals in need of these services. The VISION of Helpmates, Inc. is to be the chosen provider and employer by offering the highest level of service and quality care. Our PHILOSOPHY: Helpmates, Inc. believes that services in the home are the most important and beneficial component of the healthcare system. Helpmates, Inc. is dedicated to the idea that when the needs of a consumer can safely and effectively be delivered in the home rather than in an institutional setting, the home is the more proper and appropriate setting.

History of Organization

For over 25 years Helpmates, Inc. has been providing non-medical services in the home to those in need to enable them to age in place in a safe environment. In 1987 a home care aide in Elk Co. by the name of Joy Carlson recognized the need for homemaker and personal care services in the home in order for people in need to live safely and independently. To fulfill this void Joy founded Helpmates, Inc. and was one of the first agencies in PA to provide exclusively non-medical services in the home. The increased need for home based services over the years led to the company's expansion of locations and services. Today the company has 20 office locations that serve 40 counties throughout PA. Helpmates, Inc. and its divisions offers skilled nursing services in Clearfield and parts of Centre Co. through Clearfield Community Nurses (CCN). Helpmates Home Nurses, (HHN), provides the same type of services as CCN in Elk, Cameron, and parts of Warren and McKean Counties. Personal Management Services (PMS) is also a division of Helpmates, Inc. that employs guardians who have attained the achievement of national certification as Registered Guardians through the Center for Guardianship Certification. Helpmates, Inc. and its divisions employ a workforce of over 600 individuals.

Accreditations and Licenses

Helpmates, Inc. 20 office locations are individually licensed by the PA Dept. of Health and are certified providers for the PA Dept. of Aging. Helpmates, Inc. is also a provider for the Veterans Administration. The agency is a member of PA Home Care Assoc (PHA). Helpmates, Inc. was recognized as a "Top 100 Business" in the award winning PA Business Central. Both skilled nursing agencies, CCN and HHN, are licensed by the PA Dept. of Health and are certified by Medicare and Medicaid. CCN was recognized as one of PA's top Home Health Agencies in 2013, 2014 and 2015. Personal Management Services (PMS) a division of Helpmates, Inc., has Registered Guardians through the Center for Guardianship Certification.

Affiliations

Helpmates, Inc. is a member of the PA Home Care Assoc. (PHA). The agency is a long standing member of the Greater Dubois Area Chamber of Commerce, Clearfield Chamber of Commerce and the North Central PA Chapter of Society for Human Resource Management (SHRM). Helpmates, Inc. and its divisions have a working relationships with the AAA's and other networking agencies in the areas we serve including LINK, GIN, Nursing Home Transition committee, etc.

Legal Structure

For-profit entity

Funding Sources

Payment for non-medical services is through special funding from local county and state service agencies if consumer financially qualifies for the funding. The Veterans Administration has funding for veterans and spouses if they qualify through the VA. Certain "long term care" insurance policies include payment for custodial or non-medical care and consumers may pay privately.

Service Information

Service Area

Allegheny and neighboring counties for sessions

Service Description

Children, adolescents and their parents or guardians participate in support groups on a weekly or bi-weekly basis. Evenings begin with a meal together. The children then break into age-specific groups where they engage in creative activities and group discussions to facilitate the grieving process. Preschool play groups and infant care are available.

Community outreach and educational programs are available.

The Caring Place is dedicated to children, adolescents and their families who have lost a loved one. The programs are based on peer support. No therapy is available; families who would benefit from therapy are referred to community resources.

It is a safe place with safe people where children and their families can: know they are not alone in their grief; share their feelings, memories and experiences, in an atmosphere of non-judgmental acceptance; see that what they are going through is normal; and, know that hope and healing are possible.

Available Hours

Answering and message machine available 24 hours a day. Administration: 8:30 am - 4:30 pm / Monday through Friday. Intake: 8:30 am - 4:30 pm / Monday through Friday (phone intake). Peer support programming is held in the early evenings.

Homer Center Public Library

Organizational Information

Vision, Mission and/or Purpose of Organization

Our mission is to support and enrich our community by providing a welcoming environment that promotes the joy of reading, the opportunity for educational growth, and the literary tools and resources for success.

History of Organization

The Library Board, consisting of six community members, started meeting September 2006 in a local church's Sunday School classroom. In the Spring of 2007, we added a Fundraising Committee, which is made up of three individuals. February 2008 we signed a lease for the building we are located in. On May 17, 2008, we opened our doors to the public. The summer of 2008 we offered a summer reading program for elementary children every Wednesday morning. Some children took part in DR. PET, a dog therapy group. During the Dr. Pet program, the children read to trained dogs.

Hopeful Hearts

Organizational Information

Parent Organization

Concordia-IRMC VNA

Vision, Mission and/or Purpose of Organization

MISSION: The mission of Hopeful Hearts is to improve the lives of grieving children and their families by providing support in a safe and caring environment, where all are welcome, and where families can grow through the healing process. **VISION:** Hopeful Hearts envisions being a premier provider of child and family bereavement support and education.

History of Organization

The idea of Hopeful Hearts began when Pastor Brad Lauster of Indiana's Grace United Methodist Church presented Diane and Dennis Giever with a \$100-bill and challenged them with a Kingdom Assignment: to go out into the community and do something good. The Gievers considered a time in their recent past when their family and community friends had difficulty knowing how to help teenagers who were grieving the suicide deaths of two teenage boys. Having heard of the Highmark Caring Place of Pittsburgh, a small number of people toured the Caring Place and learned about its effective program of peer support for children and their families. Fortunately, Highmark Caring Place offered to work with a steering committee to aid in the planning for such a program in our area, and encouraged the group to submit a grant to the Highmark Foundation for funding. In December of 2008, Hopeful Hearts received a substantial 2-year grant through Highmark Healthy High 5. In early 2009, Janine Petro, executive director and Diane Giever, administrative assistant were hired. In February, Hopeful Hearts' first group of volunteers was trained. In May, the group contracted for clinical services with Dr. Nadene L'Amoreaux and began serving grieving children and families of Indiana County, eastern Armstrong and Westmoreland Counties, and southern Jefferson County. Hopeful Hearts currently has approximately 25 active volunteers who have a heart for companioning children and their families through their grief journeys. Hopeful Hearts will be entering its twelfth year of supporting children and families within the region through small group, peer support, which is offered at no cost to the families. Currently Laura McLaine is Program Coordinator, and Janice Starry is Bereavement Specialist. Hopeful Hearts is relying upon community financial support to continue and enhance its support of children and families who are grieving the death of someone close to them.

Service Description

Grief support for children, teens, and their families in age appropriate peer groups

Available Hours

Family Session Nights 6:00 to 8:00 p.m. on the 2nd and 4th Tuesday of the month (during the school calendar year). Office hours are typically 9:00 a.m. to 5:00 p.m. weekdays.

Fees/Cost for Services

No cost to families.

Eligibility Requirements

In order to participate as a family, there must be children of 18 years or younger in the family who are grieving the death of someone significant to them. The children need to be accompanied by a parent or legal guardian during family session nights. Volunteers for Hopeful Hearts need to be at least 19 years of age, provide criminal and child abuse clearances, and successfully complete Hopeful Hearts' volunteer training sessions.

Required Documentation

Families interested in participating in Hopeful Hearts sessions will complete a telephone intake conference with the Hopeful Hearts' bereavement specialist, complete and submit an application, and finally, together with the bereavement specialist, determine that the Hopeful Hearts program of

support is a good fit for the children's and family's needs. Those interested in volunteer training must complete and submit an application, including references, as well as the clearances mentioned earlier, must attend an information night, successfully complete volunteer training sessions, and, together along with Hopeful Hearts' Trainers, determine that they are a good fit with Hopeful Hearts as a volunteer.

Volunteer Description

Trainings are conducted once per year for persons, ages 19 or older, who have a love for working with children and a desire to help them through their grief journeys. Call for more information.

Housing Authority Of Indiana County

HAIC

Organizational Information

Vision, Mission and/or Purpose of Organization

Our mission at the Housing Authority of Indiana County is to help improve the quality of life; to provide a safe, sanitary home and a suitable living environment that is affordable to elderly persons, families and those with special needs consistent with Local, State and Federal statutes

History of Organization

In 1969, the Indiana County Commissioners saw a need in the county to provide safe and affordable housing for individuals, families, the elderly and those with special needs on low to moderate incomes. Conemaugh Terrace, 24 units in Blairsville Borough, was Indiana County's first subsidized housing community. This was the start of our agency, the Housing Authority of Indiana County (HAIC). Morewood Towers in Blairsville quickly followed, offering not only another housing community, but also providing office space on the first floor of the building. As our agency continued to expand, we saw a need to be more centrally located so that our services would be more accessible to all residents of Indiana County. We constructed a new building at 104 Philadelphia Street, Indiana, and moved to our current location in 1992. Four decades later, HAIC now owns, operates or provides rental assistance for more than 760 housing units throughout Indiana County. We manage and maintain 221 units at 10 sites, each offering a secure, pleasant environment where residents can enjoy all the comforts of home in a small town. Rental assistance is provided to 569 households leasing from private landlords through the Section 8 Housing Choice Voucher program, funded by the Department of Housing and Urban Development. HAIC is a progressive agency, which established a non-profit affiliate, the Housing Alliance of Indiana County, Inc. (the Alliance) in 1993 to serve as our development arm. The Alliance operates on a regional basis. Through a variety of public/private partnerships, the Alliance has been involved in the development of 21 affordable housing projects located in Allegheny, Armstrong, Mercer, Somerset and of course, Indiana County. HAIC remains committed to addressing the housing needs of Indiana County with quality housing and excellent service.

ICW Vocational Services, Inc.

Organizational Information

Vision, Mission and/or Purpose of Organization

The mission of ICW Vocational Services, Inc. is to teach, empower, and support individuals with disabilities through a continuum of services; and to promote lifelong learning to maximize the individual's potential to obtain their goals with dignity.

History of Organization

ICW Vocational Services, Inc. has supported adults with disabilities for 50 years. Our story begins in September 1971 when the Indiana County Workshop opened its doors with one trainee. A year later, May 1972, the Workshop and its fifteen trainees moved to 1200 School Street. The Department of Welfare established guidelines in 1976 that resulted in the Workshop becoming licensed as a vocational-rehabilitation center offering job placement. The name changed in 1977 to Indiana County Workshop, Incorporated. In 1982, the Workshop operated at full capacity with a waiting list of trainees. By 1992, the Workshop had outgrown the 1200 School Street location, moved to a much larger space located at 155 North 10th Street, and added a wide range of community integrated employment opportunities. In 1995, the name changed to ICW Vocational Services, Inc. Over the next few decades, ICW Vocational Services, Inc. expanded services based on the premise that every individual has the capacity to engage in lifelong learning; and should have access to unlimited opportunities in order to maximize their potential to obtain full inclusion in all aspects of life with dignity. Today, ICW Vocational Services, Inc. operates two facilities, both centrally located in Indiana, PA, and annually serves over 85 individuals with developmental disabilities, mental health diagnosis, and physical impairments from Armstrong, Indiana, and Westmoreland Counties. ICW Vocational Services, Inc. continuum of services include: Community Participation Supports Facility Based Programming, Community Participation Supports Community Based Programming, In-Home and Community Support, Small Group Employment, and Employment Services.

Service Information

Service Area

Mainly Indiana County; also serve a small population from Armstrong, Westmoreland and Jefferson Counties

Service Description

Employment Services Division: Provides on-the-job training and job placement (Supported Employment Services) in the community.

Steps to Success - Community Participation Supports Adult Training - This Facility-Based real-world program educates individuals in independent living, workplace readiness, career exploration through paid opportunities in various community locations, employment, and other areas that support and enrich quality of life. Numerous methods of learning applications/techniques are offered to facilitate a limitless learning continuation of skills to enhance independent success.

In-Home and Community Support offers personal assistance to build daily living and social skills. Tailored to each participant, program services will be provided in the home, in the community, or a combination of both. Individuals and their families will be the decision makers regarding where and how they receive services to best fit their goals and needs. Individuals will be paired with a trained direct support professional, who will assist in developing skills necessary for everyday living.

Pre-Vocational Skills Training - Community Participation Supports - This Facility-Based program offers work development skills. Many local businesses partner with ICW in an effort to provide a worthwhile service to the business community while providing individuals with realistic paid work experiences that help develop appropriate work skills and habits.

Small Group Employment is designed to support individuals in transitioning to competitive integrated employment. Various training sites offer individuals an opportunity to work in a job in the community; paid at least minimum wage, to gain practical work experience. ICW also helps individuals to find volunteer opportunities and other training/work experiences which will help them to become better prepared for competitive integrated employment.

Indiana County Community Action Program, Inc.

ICCAP

Organizational Information

Vision, Mission and/or Purpose of Organization

ICCAP's mission is to serve as the community agency to mobilize services and resources to empower families and individuals to progress towards self-sufficiency.

History of Organization

In August of 1964, President Lyndon B. Johnson signed the Economic Opportunity Act (EOA) which gave birth to the Community Action. This Act was to eliminate the causes and consequences of poverty in the United States. EOA initially provided for job training, adult education and loans to small businesses to attack the roots of unemployment and poverty. The Act established Community Action Agencies at the local level to implement such programs. Indiana County Community Action Program, Inc. (ICCAP) was designated Indiana County's Community Action Agency by the county's commissioners in 1965. ICCAP is one of more than 1000 Community Action Agencies in the United States and one of 43 in the state of Pennsylvania. Partnerships with state and federal Community Action Agency organizations, such as the Community Action Association of Pennsylvania and the National Community Action Foundation, provide advocates and lobbyists for low-income programs. Low-income individuals in Indiana County face many barriers to self-sufficiency due in part to the rural composition of the County and the lack of a comprehensive transportation system. ICCAP provides integrated services that compliment the workforce development and human service systems, provide emergency services, assist in addressing transportation needs, create homeownership opportunities and involve communities in the design of delivery services. Today, Community Action Agencies across the United States whether they are non-profit, private or community agencies-still have the same missions they did 40 years ago-to eliminate poverty. Community Action Agencies strive to help clients reach goals that include securing and maintaining employment, income management, improving nutrition, securing and maintaining adequate housing, creating linkages to other community agencies and most importantly, achieving the highest level of self-sufficiency possible

Service Information

Service Area

Indiana County

Service Description

Energy: Some programs may be available to assist low-income individuals with energy costs.

Mortgage Assistance: Homeowner's Emergency Mortgage Assistance Program (HEMAP) is for homeowners who face losing their homes to foreclosure. The mortgage must be at least 60 days behind, and the homeowner must have received an Act 91 Notice from their lender (which is an action to foreclose on property) before an application can be filed. An application for mortgage assistance can be filed at ICCAP, and the agency then forwards it to the Pennsylvania Housing Finance Agency for review. The circumstances that caused the homeowners' financial hardship must have been beyond their control in order to qualify for a HEMAP loan. Up to 24 months of mortgage assistance can be provided. ICCAP can serve homeowners in Indiana, Clearfield, Westmoreland, Jefferson, Armstrong and Cambria counties.

Temporary financial help (rent and/or security deposits) are available to homeless or nearly homeless families and individuals through the Housing Assistance Program.

Case Management/Information/Outreach: All visitors to the ICCAP office see a case manager who assesses household needs, makes appropriate referrals to agencies and programs, then follows up to assure that services were received. Goals are developed between the case manager and household that focus on steps to self sufficiency.

Steppingstone is a Bridge Housing Program that provides low-cost, interim housing, case management and support services to homeless, single-parent families moving toward self-sufficiency.

Representative Payee Program: ICCAP provides payee services to mental health consumers, in Armstrong, Jefferson, Westmoreland and Indiana Counties, who receive Social Security, Supplemental Security Income or Social Security Disability payments. Referrals to the program come from the Armstrong-Indiana MH/MR Program, the Community Guidance Center, I&A Residential Services, Indiana County Intensive Case Management, Armstrong County Intensive Case Management, and the Family Counseling Center. Program recipients must have a diagnosed mental illness and a willingness to work with the Representative Payee Program Staff.

Work Ready Program: The Work Ready Program is a welfare-to-work program designed to help those who face multiple barriers to employment. Referrals to the program come from the Indiana County Assistance Office. A case manager provides barrier remediation services.

Project PHD (permanent housing for the disabled) assists homeless disabled individuals locate and

maintain housing.

Kiwanis Diaper Project: Indiana County Community Action Program, Inc. is operating the Kiwanis Baby Cupboard Service that provides diapers to qualifying families of Indiana County. This project provides diapers at a reduced cost. When supplies are available. For more information contact Shirley Marshall at (724)465-2657 or email

Inhabit Indiana Closing Cost Assistance Program - grant program in the amount of \$ 2,000 towards closing costs for individuals wanting to purchase a home in Indiana Borough. Must be at 80% median income guidelines, and complete HUD Certified Course from ICCAP Housing Counselor.

Food: ICCAP operates 17 monthly food distribution programs operate in various locations throughout Indiana County. A box of food is provided regularly to families to help stretch food dollars and provide good nutrition.

Commodity Supplemental Food Program (CSFP): Federal program that provides food to individuals who are 60+ years of age and met the 130% of federal poverty guidelines or lower. This program is designed to improve the health and nutrition of seniors. ICCAP distributes the third Tuesday and Wednesday of every month. To apply for the program call 724-463-7440.

Homeless Housing Services-provides emergency shelter and support services to families and individuals. ICCAP also offers units of affordable permanent housing in Josephine and Blairsville.

Indiana County Government, Domestic Relations

DRS

Organizational Information

Vision, Mission and/or Purpose of Organization

The Indiana County Domestic Relations Section strives to ensure family self-sufficiency. Our goals are to ensure that children have the financial and medical support of both their parents; to foster responsible behavior towards children and to emphasize that children need both parents involved in their lives. The Indiana County Domestic Relations Section focuses on helping children get the financial support they need when it is not received from one or both parents. To accomplish this, we work directly with the families we serve and partner with state and federal agencies and private companies to carry out critical steps in the child support process.

Indiana County Head Start, Inc.

Indiana County Head Start, Inc.

Organizational Information

Vision, Mission and/or Purpose of Organization

Indiana County Head Start, Inc. strives to provide a supportive and nurturing environment in which children and their families feel valued and heard while being connected with the services and education necessary to become empowered self-sufficient members of the community. The vision of Indiana County Head Start, Inc. is to continuously evolve to meet the educational, emotional and life skill needs of the children and families in which we serve. Indiana County Head Start is a free pre-school program that promotes the school readiness of low-income children from prenatal to age five by enhancing their cognitive, social, and emotional development in learning environments that support children's growth in language, literacy, math, science, social and emotional functioning, creative arts, physical skills, and approaches to learning. Head Start recognizes the importance of family-focused early intervention and strives to build upon the strengths of each family.

History of Organization

Indiana County Head Start opened their doors meeting the needs of low income families of Indiana County in 1972. Today, Indiana County Head Start continues to have a strong presence in the community. We collaborate with agencies to network, to cross-refer, to share expertise and to effectively use resources. The partnerships between our staff, families, and community agencies build positive relationships. These relationships support parents' progress toward their goals for themselves and their children. As we determine the needs of our Head Start families, we are able to connect them to resources in the community. Our community partners are available to work with families on such goals as parents' educational advancement, economic mobility, and other aspects of family well-being. Community engagement promotes positive, enduring change for children, families, and communities in accordance with the Office of Head Start Parent, Family, and Community Engagement Framework. Among the many county agencies with which we collaborate are: IC Children & Youth Services, IC Community Guidance Center; ARIN IU 28, WIC; Salvation Army, Drug & Alcohol Commission, IC CARE Center, Family Promise (Homelessness), Community Action Program, Indiana Regional Medical Center & other health care providers, Indiana University of Pennsylvania, IC technology Center, and Justice Works. Head Start Staff serves as members of the following community groups: a. Children's Advisory Commission b. Early Care and Education Committee c. Local Interagency Coordinating Council d. Safe Kids Coalition e. Health and Human Services Subcommittee Finally we actively participate in a wide variety of community events that offer a positive experience for children and families. o Back to School Bash (August) o Seasonal Parades o Indiana County "Day of Play" (Fall) o Indiana County "Family Fun Fest" (Spring) o Brush Valley Days o Northern Appalachian Folk Festival o Salvation Army Treasures for Children Sign-Up and distribution of gifts o Sheetz Family Christmas events

Legal Structure

Non-profit corporation

Funding Sources

The federal government funds Head Start programs through the U.S. Department of Health and Human Services, Administration for Children and Families. Indiana County Head Start, Inc. must qualify to become a Head Start recipient and receive federal funding. The Office of Child Development and Early Learning administers the Head Start Supplemental Assistance Program. This program provides state funds to supplement federal allocations to expand high quality pre-kindergarten Head Start services for eligible children.

Volunteer Description

Volunteers are important in helping Head Start meet the needs of children. Parents may volunteer to read stories, sing songs, wipe noses and tears, play house, build with blocks, serve food, and supervise outdoor play. Indiana County Head Start, Inc., in compliance with the PA Child Protective Services Law, now requires volunteers over the age of 18 to obtain clearances prior to volunteering. There is no cost for these clearances and our staff will help you to apply for them. Please know that we value your input and could not do without your support. Your child(ren) would love to have you visit and/or volunteer in their classroom! If a volunteer has been a resident of PA continuously for the past 10 years s/he must obtain every five years at no cost to the volunteer: Pennsylvania State Police Criminal Record Check: <https://epatch.pa.gov/home> Child Abuse History Clearance through the Department of Human Services: <https://www.compass.state.pa.us/CWIS> Signed disclaimer affirming no charges in other states that would prohibit selection as a volunteer If the volunteer has NOT been a resident of PA continuously for the past 10 years, s/he must also obtain FBI Criminal Background Check (fingerprint check) in addition to above mentioned clearances. There is a cost for the fingerprint clearance: <https://enroll.identogo.com/> Copies of all volunteer clearances and signed disclaimer must be maintained by Indiana County Head Start in a central file. All volunteers must have the approval of a Manager and must be supervised by Head Start staff at all times.

Volunteers will not be left alone with any child unless they are the biological parent or legal guardian of the child. If you are interested in volunteering, please contact the administrative office at 724-349-6200.

Service Information

Service Area

Indiana County. Availability of services DEPENDENT ON FUNDING

Service Description

Building Permits and Code Enforcement - ICOPD, under the statewide building code, known as the UCC, administers and enforces the code for 32 of the county's 38 municipalities. The code applies to the construction, alteration, repair, movement, equipment, removal, demolition, location, maintenance, occupancy or change of occupancy of every building or structure in these municipalities and all existing structures that are not legally occupied. Please contact the office for a map of the municipalities as well as application packets, guidelines, and exemptions.

Housing Accessibility Program of Indiana County- program provides financial assistance to Indiana County residents with permanent physical disabilities and will enable them to maintain their independent living status by modifying their homes to accommodate their disability. Any Indiana County home owner with a physician certified permanent physical disability that meets the income guidelines is eligible.

55+ Roof and Heating Systems Replacement Program. - Assistance for Indiana County homeowners to address leaking or deteriorated roof systems and inoperable or inefficient heating systems. Due to limited funding, they are not addressing other energy efficiency issues. Must be an Indiana County homeowner (home and land), property taxes must be current or have a written agreement with Tax Claim for payment. Households must income qualify. There is limited funding for the program and a running waiting list.

Countywide Lateral Assistance Program - The program is a grant or deferred loan program for Indiana County residents that are required to connect to public water or sewage main line. Households must meet income eligibility as well as other criteria. A lateral connection is from the house to the main service line of the public system. Funding for this program is limited.

Available Hours

8:30 am - 4:30 pm / Monday through Friday; Voice mail 24 hours. Due to the COVID-19 pandemic, the office is currently closed to the public; but are both sending and accepting applications by mail or by other arrangements. Please call 724-465-3879 for Building Permits or 724-465-3872 for Housing programs. You may also call the main office number at 724-465-3870 for general information. Please allow 24 hours for response.

Fees/Cost for Services

There are no fees for the housing and community development grant/loan programs. Fees for the building permits are based on the type of project. Please call the office for the current fee schedule.

Eligibility Requirements

Varies depending upon program or service.

Required Documentation

Varies depending upon program or service.

Indiana Free Library

Organizational Information

Vision, Mission and/or Purpose of Organization

Mission: To serve and strengthen our community through literacy and lifelong learning. Vision: IFL - A premier library and cornerstone for community life.

History of Organization

In 1901 a women's civic organization was formed from a group of 25 women who had a high literary interest. This civic group was and is still today known as the New Century Club. In 1904 they established a Reading Room above Graff's Market on North 6th Street in Indiana. This room consisted of one book shelf made of packing boxes from the H.C. Christy Shoe Store. In 1908 the reading room needed more space and moved across the street to the Wissell building. The growth of the reading room proved a need for a trained librarian. On February 13, 1908 the NCC sponsored a book social to acquaint the community with the idea for a library to be established in the community center. But it wasn't until 1926 that the reading room was reorganized and became known as the Indiana Free Library. The NCC was the library's main support in those days and continued to be until 1914 when the school district started to donate money. From the minutes of the NCC secretary's book, "If the reading room makes one boy or girl refrain from foolishness and awakens a taste for something worthwhile, the expenditure has not been in vain." In 1930 the Indiana Free Library moved to the McCartney Homestead of SE Corner of North 8th and Water Streets in Indiana and in this year the Indiana Borough began to fund the library. Finally in 1934 the Indiana Free Library moved to the community center which is its present location. White Township began contributing financial support to the library in 1972. The Indiana School District contributed funds in the beginning of the library's history in 1914 and recommitted funding to the library in 1989. These funds entitle every resident of Indiana Borough, White Township, Armstrong Township and Shelocta Borough the opportunity to secure a free membership card for access to all facilities and services. Today, the Indiana Free Library has approximately 88,000 holdings and services 32,924 patrons. The library currently offers children and adult programming on a regular basis. Also, the library offers free public access to the Internet. The current Library Board consists of seventeen (14) members who represent White Township, Indiana Borough, and Indiana School District and the community at-large. The Library Board meets monthly with the exception of July.

Accreditations and Licenses

The Indiana Free Library is one of two Independent state-aided libraries in Indiana County with a service area of 32,924 within the Indiana School District. Blairsville Public Library is also a state-aided library. We are also licensed to show popular movies and enjoy small games of chance activities. IFL is now a Pa Forward Gold Star Library.

Affiliations

The Indiana Free Library is an independent library affiliated with the Johnstown District of state-aided libraries. It is a 501(c)3 non-profit organization under the supervision of a Board of Trustees composed of members of the community with representatives from both White Township and the Indiana Borough who support the library with funding.

Legal Structure

Non-profit corporation

Funding Sources

Indiana Free Library is State-aided receiving local support from Indiana Borough, White Township and Indiana School District. Local support is also solicited through fundraising, grants and local

giving.

Service Information

Service Area

Indiana School District

Service Description

The library website at www.indianafreelibrary.org has services available such as renewing and reserving books online, streaming independent movies, downloadable ebooks and audiobooks, online reference and book clubs all for area residents.

A strong fiction collection with designated and endowed mystery collection, science fiction, westerns, paperbacks and graphic novels is available of the second floor of the library.

A non-fiction collection is available on the first floor with biographies, local history, craft and cookbooks, self-help literature, and career or workforce development resources on the second floor of the library.

A very lively Children's Department with children's computers, interactive games, craft spaces, puppets, story time area, friendly staff and inviting displays are available for area children. Please check the website or Saturday Gazette column for event times.

The AV area of the library at the back of the first floor houses the extensive DVD collection of cinema and informational videos, music CD's and quality audiobooks as well as seating for smaller groups, studying or tutoring.

The journal area at the entrance of the library contains more than a hundred current issues of popular journals and newspapers which can be read in a quiet seating area, with two years of previous issues available for circulation.

Board games are available to play in the library and can be checked out and returned from the

Children's Department.

For registered book clubs, Book Club Kits of 15-20 copies of a title and discussion questions can be borrowed by special arrangement from the Johnstown District Center. Please ask a Reference Librarian for details.

Interlibrary Loan is used for materials not available at the library. Ask about acquiring titles you do not find in the collection.

For the visually-impaired, Large Print books, audiobooks in CD or downloadable formats are available. There is an enlarger in the journal area for on-site reading. Ask for an application to services for the visually-impaired for in-home use from the Carnegie Center in Pittsburgh.

A collection of parenting books and materials on child care issues is available in the Children's Department.

FREE programs are offered for public education on many topics such as local history, book discussions, music performances, technology classes and more. Please check the website under EVENTS for a complete and updated listing. The library follows PA Forward initiatives supporting Basic Literacy, Information Literacy, Health Literacy, Financial Literacy and Civic and Social Literacy to improve our world.

A designated Teen Space has an extensive Young Adult collection, two teen-only computers, a gaming area and study or tutoring spaces.

A meeting room , complete with kitchen, wireless connections and presentation space may be rented for two-hour time slots for \$40., with a possible extension of \$5. per each additional half hour. Reservations may be made by calling the Front Desk of the library to schedule. A returnable \$20. cash deposit is required on the day of your event.

Fax service, mail pick-up, photocopying, Internet printing and disc cleaning are available from the Front Desk or Circulation area. Copies and prints .10 cents for B & W, color are .25 cents.

Library Service, FREE WiFi indoors and outdoors. During the pandemic indoor activities are relocated to online services. A Grab N Go service offers access to all library materials. Currently volunteers are not accepted nor is there any foot traffic inside the library during limited operational hours.

Monday 4-7 pm

Tuesday 11 am - 3 pm

Wednesday 11 am - 3 pm

Saturday 11 am - 3 pm

Meeting spaces and room rental are suspended during the pandemic.

Available Hours

Monday 4 - 7 pm, Tuesday, Wednesday, Thursday, and Saturday 11:00 am - 3:00 pm. Closed Friday and Sunday.

Fees/Cost for Services

Any resident of Indiana Borough, White Township, Shelocta or Armstrong Township is eligible for a free library card. Other people can use the library materials while in the library, but to borrow materials must pay a fee of \$25.00/year per family. The library will honor Access PA cards with a valid home library card. Fee attached to some other programs, details available at the library. *For

added service during the pandemic, all Indian County residents may request a free regular card which will not expire for two years but must be obtained prior to December 31, 2020.

Eligibility Requirements

Resident within service area. * Currently a special offer to all Indiana County residents.

Required Documentation

Proof of current address to establish residency.

How to Access Services or Schedule Appointments

Contact the Front Desk or Circulation Desk of the library by phone or send an email request to reference@indianafreelibrary.org

Miscellaneous Information

Handicap Accessibility

Library is wheelchair accessible through the entrance to the Jimmy Stewart Museum and elevator. External bookdrop available on ground level at Museum entrance.

Languages Spoken or Available

Digital resources such as the Power Library give the option to interface with over 50 languages.

Volunteer Need

No

Volunteer Description

Volunteers needed for book shelving and event staffing. Act 34 Clearances are required as well as initial training in library procedures. Volunteers also needed for special events. The regular volunteer program will be reinstated after the time of the pandemic.

Indiana University of Pennsylvania, Center for Applied Psychology

CAP

Organizational Information

Parent Organization

Indiana University of Pennsylvania

Vision, Mission and/or Purpose of Organization

The Center for Applied Psychology provides low-cost psychological services, including psychotherapy and assessment for adults and children, to residents of Indiana County and neighboring communities. Clinical services are provided by doctoral students in IUP's Clinical Psychology Doctoral program under the supervision of licensed clinical psychologists.

History of Organization

The Center for Applied Psychology has been operating as part of the doctoral program since it began over 30 years ago. Our mission is to train students to serve as professional practitioners who advance the discipline of psychology, develop the scientific base of psychology, promote public understanding of psychological science and its applications and advance the profession as a means of promoting human welfare. Students receive extensive supervision in the development of skills in interpersonal relations, psychological assessment, psychotherapy, community outreach, and program evaluation and a solid grounding in the scientific knowledge base of psychology.

Accreditations and Licenses

The Psy.D. program has been continuously accredited by the Commission on Accreditation of the American Psychological Association since November 1987. All supervisors in the Center for Applied Psychology are licensed to practice Psychology in the state of Pennsylvania.

Affiliations

The Center for Applied Psychology is housed in the Psychology Department in the College of Natural Sciences and Mathematics at Indiana University of Pennsylvania.

Vision, Mission and/or Purpose of Organization

At Interim Healthcare, we provide the best care to clients of all ages. We are dedicated to delivering in-home services to children, seniors, individuals with disabilities, chronically ill persons of all ages, those recuperating from surgery, and their families with unmatched compassion and superior client care. To help accomplish that objective we treat our care professionals like family. Interim ensures that our employees have the training and support they need. We also them with provide the recognition they deserve. We take pride in the quality of our employees and our screening process. We take our commitment to quality seriously, and are one of the only agencies in the area to have pediatric certified nurses on staff. We also have nurse supervisors overseeing all cases to ensure our patients are receiving the best care. We are a family owned business that offers: personal care, in-home care, nursing services, pediatric care and nursing services, respite care, veteran's care, and multiple therapies. We work with our clients and their families to develop a personalized care plan to ensure our customers can continue to live the lifestyle they are accustomed to. If you or a loved one are in need of services, have questions, or just need some help and aren't sure where to turn - give us a call at 814-375-9615. We currently service Venango, Forest, Clarion, Armstrong, Indiana, Jefferson, Elk, Clearfield, and Cameron Counties.

Service Information

Service Area

Indiana County

Service Description

This program is designed for the working poor, generally those earning less than 200% of the federal poverty level. Those qualifying could be people employed part time or those who work for an employer who does not provide medical coverage, those who earn too little to afford traditional medical insurance coverage and those who earn too much to qualify for government medical assistance programs.

Participants are entitled to primary care visits, emergency care, outpatient laboratory and diagnostics services, inpatient and outpatient surgeries, inpatient stays, behavior health care and

assistance with prescriptions through a combination of drug programs that manufacturers offer as well as drug programs offered by area pharmacies. Participants will also receive nutritional guidance and support in making healthy choices for living.

Eligible volunteer firefighters in Indiana County who are participating in the U.S. Department of Homeland Security's SAFER (Staffing for Adequate Fire and Emergency Response) program may also participate in the program and have their monthly fees paid by the SAFER grant. The first firefighters covered will be eligible members of the fire companies in Marion Center, Indiana, Creekside, Cherry Tree and Plumville. The SAFER program's goal is to help fire companies recruit and retain enough members so their host communities have adequate protection from fire and fire-related hazards 24 hours a day.

Fees/Cost for Services

Monthly individual rates of about \$99 or \$165.

How to Access Services or Schedule Appointments

League Of Women Voters of Indiana County

LWVIC

Organizational Information

Parent Organization

League of Women Voters United States

Vision, Mission and/or Purpose of Organization

The League of Women Voters is a nonpartisan organization, encourages informed and active participation in government, works to increase understanding of major public policy issues, and influences public policy through education and advocacy.

History of Organization

The League of Women Voters began in 1920 directly from the leaders of the women's suffrage movement changing their mission from advocating for the right to vote to educating women about their newly won right to participate in the democratic process of electing individuals to represent them in their government. Under the leadership of Carrie Chapman Catt, LWV United States worked then and continues to work to ensure that all voices are heard by elected leaders.

Lifesteps, Inc.

Vision, Mission and/or Purpose of Organization

Vision Improve the quality of life for members of our communities. Mission Helping individuals and families with life's changing needs by developing programs and providing services which will improve their quality of life.

History of Organization

From our beginning in 1923 as part of the National Society for Crippled Children to our independent status as Lifesteps today, we have been helping individuals and families with life's changing needs lead better lives. Today, the Agency helps thousands of individuals annually; and provides outreach to tens of thousands of area families. The Lifesteps staff creates a culture that works to foster independence and to provide exceptional care and support to all we serve. Tragedy Leads to Inspiration In 1907, Ohio businessman Edgar Allen lost his son in a streetcar accident. The lack of adequate medical services available to save his son prompted Allen to sell his business and begin a fund-raising campaign to build a hospital in his hometown of Elyria, Ohio. Through this new hospital, Allen was surprised to learn that children with disabilities were often hidden from public view. Concerned by this discovery, Allen put all his efforts into collecting private donations for a hospital to provide services for disabled children. In 1915, the Gates Hospital for Crippled Children was established solely for disabled children and the services were offered free of charge. When the community hesitated to accept the free services, Allen enlisted the Rotary Clubs of Ohio as volunteers to help gain the trust of the communities and assist with the care of the children. By 1919, Allen and Ohio Rotarians established what became known as the National Society for Crippled Children, the first organization of its kind. The organization had chapters throughout the Midwest and northeast, including Pennsylvania, just two years later. The umbrella organization and its chapters later became known as the Easter Seal Society. Local Community Support Leads To Independence From eight programs and services offered in 1954, the local agency grew to offer 35 programs and services by 2002. Community support also continued to grow. The community supported the Agency through sponsorship, special events and volunteering. Strong community support and commitment lead the agency to break away from the Easter Seal Society in 1994 and become an independent nonprofit agency known as Lifesteps, Inc. Lifesteps mission is supported by hundreds of businesses and individuals. Whether Lifesteps has required more facility space or funds to add services for the community, Lifesteps has been able to call on the community for the support it has needed to accomplish its goals. Lifesteps, in turn, has continued to answer the call when the community has needed new services to help individuals and families with life's changing needs.

Accreditations and Licenses

Lifesteps, a 501(c) 3 is licensed to provide services and has met all requirements of the Office of Vocational Rehabilitation, the Department of Public Welfare's Office of Mental Retardation, the Pennsylvania Department of Education, the Pennsylvania Department of Health, the Area Agency on Aging, and Child Care Information Services (Subsidized Child Care). All programs are subject to regular internal and external evaluations to insure the quality of Lifesteps programs and services.

Service Information

Service Area

Lifesteps of Indiana County is a branch of Lifesteps, Inc. Lifesteps serves Allegheny, Armstrong, Beaver, Butler, Greene, Indiana, Lawrence, Mercer, Washington, and Westmoreland Counties.

Service Description

Family Care Mobile Library- The Lifesteps' Family Care Mobile Library is a traveling library program designed to build stronger families by strengthening and empowering them with the resources they need to face challenges in their lives. This free program will travel to the families in the Indiana County area and meet their needs in a comfortable and accessible setting.

Community OutReach Program (COR) provides support for individuals with developmental disabilities and their families by teaching ways to positively change one's behavior to foster functional community living and increase independence in their home or residential facility. COR is an alternative to a workshop program for people who lack interest in vocational skills, or who exhibit behavioral deficiencies or inappropriateness that limits their chance for success in a less restrictive setting. Individuals are provided vocational and socialization training to enhance communication and basic life skills.

The community-based program operates Monday through Friday from 9 a.m. to 2 p.m.

The Residential Living Program or Community Homes helps individuals receiving services to become more self-sufficient in daily living activities which will enable them to function in a less-restrictive environment. The program provides support for both the individual and their families by teaching ways to positively change one's behavior, to foster functional community living and increase independence in their home or residential facility. A dedicated team of Direct Care Professionals work with each individual to help them develop self-sufficiency in daily living skills, socialization and leisure skills through community relationships.

Pediatric Independent Evaluations- Lifesteps provides certified staff to provide a home-based assessment service. The staff assesses learning skills in areas such as physical development, speech, personal and social skills through a comprehensive standardized home-based test.

Child Check - A FREE developmental screening for children from birth to age 5 that checks a child's development in playing, talking, hearing, moving and thinking. Autism screenings are also available for children up to age 3. Appointments recommended by calling 1-800-225-2010.

Available Hours

Programs have different hours. The Indiana County Program Center located at 1455 Church Street, Indiana PA, is open weekdays from 9 a.m. - 2 p.m.

Fees/Cost for Services

Fees, if applicable are specific to each service. For more information, contact Lifesteps at (724) 349-1122 or 1-800-225-2010

Eligibility Requirements

Community OutReach Program and Community Homes Must have a primary diagnosis of Intellectual and Developmental Disabilities and an open case with a county Base Service Unit.

Required Documentation

Documentation required is specific to services. For more information, contact Lifesteps at (724) 349-1122 or 1-800-225-2010

LOLAs International

Vision, Mission and/or Purpose of Organization

Mission Statement Our mission is to provide affordable child care with the highest quality care and education. In doing so, we will also support the members of the local community through opportunity in quality employment. Our desire to provide high-quality care, education, and employment is rooted in Christianity. We are committed to helping raise up men and women through supporting their desire to advance and meet their career goals; consequently, continually bringing forth teachers who are well prepared to meet the social, emotional, physical, spiritual, and cognitive needs of the children.

History of Organization

LOLAs was established and licensed February 22, 2016 and recieved 4 Keystone STARS within 15 months of opening. Shortly after, LOLAs was awarded the "Bright Star" Award by the PA Keys. LOLAs continues to work for the community by providing high quality early care and education for the children of Indiana County, and Homer City Pennsylvania.

National Kidney Foundation Serving the Alleghenies (Western PA/Wes

NKF or NKFALL

Organizational Information

Parent Organization

National Kidney Foundation, Inc.

Vision, Mission and/or Purpose of Organization

The National Kidney Foundation, Inc., a major voluntary health organization, seeks to prevent kidney and urinary tract diseases, improve the health and well-being of individuals and families affected by these diseases, and increase the availability of all organs for transplantation. The National Kidney Foundation (NKF) is the leading organization in the United States dedicated to the AWARENESS, PREVENTION and TREATMENT of kidney disease for hundreds of thousands of healthcare professionals, millions of patients and their families, and tens of millions of people at risk. NKF develops and implements a full range of educational resources for health care professionals, patients, and the general public, including individuals at risk for kidney disease. We also provide valuable ongoing services to patients, transplant recipients, living donors and donor families.

History of Organization

The NKF Serving the Alleghenies was founded in 1978 by a group of concerned people who wanted to increase awareness of kidney and urinary tract diseases and work toward finding a cure. Today, we are a regional office of the National Kidney Foundation and have eight staff working in Western Pennsylvania. We have a volunteer fundraising Board of Directors made up of patients and their families, business leaders, community activists, physicians, nurses, and others who are committed to working towards our common mission, which is to prevent kidney and urinary tract diseases, improve the health and well-being of individuals and families affected by these diseases, and increase the availability of all organs for transplantation. The territory of the NKF Serving the Alleghenies includes 33 counties in western Pennsylvania from Erie to the southern state line and east to DuBois. We also serve 47 counties West Virginia. Over 100 dialysis clinics and nearly 6,000 patients depend on us each year for information, services, and support. Additionally, the NKF Serving the Alleghenies is a leader in educating individuals about kidney disease through health fairs, professional education, school programs, and special events. All programs and services offered by the NKF Serving the Alleghenies are made possible through the generous support of individuals, companies, and foundations who are interested in & Taking Kidney and Urinary Diseases From Treatment to Cure!

Service Description

Your Kidneys & You - The National Kidney Foundation's Your Kidneys & You program was developed to raise awareness among the general public and individuals at risk for kidney disease by educating them about kidneys, risk factors for kidney disease, and what can be done to protect kidneys.

Professional Education - NKF's Continuing Medical Education Program aims to provide all members of the kidney health care community with current, state-of-the-art scientific information on the prevention, diagnosis and treatment of kidney disease in order to improve the care of individuals with chronic kidney disease (CKD). NKF offers the following professional learning opportunities that you can recommend to your local clinicians in multiple disciplines/specialties. All of NKF's professional education opportunities are created by NKF's Kidney Learning Solutions (KLS)®[®], which is dedicated to creating accurate, unbiased, and scientifically sound educational tools related to kidney disease, its risk factors, complications, comorbidities, treatment and therapies.

NKF Cares - NKF's patient hotline offers support for people affected by kidney disease, organ donation or transplantation. It's dedicated to patients, family members, and caregivers who are able to speak with a trained professional ready to answer questions and address concerns. The toll-free phone number is 1-855-NKF-Cares (653-2273).

PEERS Lending Support - PEERS is a national, telephone-based peer support program from the National Kidney Foundation that connects people who want support with someone who has been there before. This program is designed to help people adjust to living with chronic kidney disease, kidney failure, or a kidney transplant. The toll-free phone number is 1-855-NKF-PEER (653-7337).

Transportation - Pennsylvania residents who meet eligibility requirements are reimbursed for a portion of the transportation costs associated with traveling to and from dialysis treatment at a clinic three times a week. This program is run in collaboration with, and within the guidelines of, the Pennsylvania State Renal Disease Program.

Big Ask, Big Give Living Donation Program

Are you a kidney patient or a family member or friend of one who wants to learn more about getting a kidney transplant? Or are you interested in learning more about donating a kidney to someone in need of a transplant? In this free webinar from the National Kidney Foundation, you'll learn what's involved in receiving a kidney transplant. Find out what you need to know if you're thinking about donating a kidney. Hear personal stories from kidney transplant recipients and living donors.

NKF Patient Network

The NKF Patient Network is the first nationwide kidney disease patient registry developed with the overall goal of improving the lives of people with kidney disease through research, clinical care, drug development, and supportive health policy decisions. We believe the best way to achieve this is by partnering with kidney patients like YOU. The Network is a place to transform kidney care and research together!

The NKF Patient Network offers a secure portal that you can log on to at any time to easily share your experiences and health data that, in turn, helps with research that supports the entire kidney disease community. You can choose to manually enter your information or link it, with permission, to your medical records.

By sharing your information and providing feedback through surveys about your condition and healthcare experiences, both doctors and scientists will be able to better understand your care and create research that focuses on what you need.

Volunteer Description

There is no "us" without "you". Give, volunteer, or advocate to help win the fight against kidney disease. Volunteering with the NKF gives you a chance to be a part of our ongoing effort to help the 37 million Americans with kidney disease live richer, fuller lives. Help us to raise awareness about early detection, risk factors, and the importance of organ donation. What Can You Do? The NKF needs people of all ages and interests! Volunteer opportunities include: -Special Events - pre event help with auction basket creation and day of help with logistics -Serving on local boards and event committees -Consider sharing your story and become an NKF Mission Moment Presenter -Serving on program development committees -Share a special talent, story or gift with our kidney community Contact holly.turkovic@kidney.org for more information.

Peerstar, LLC

Peerstar

Organizational Information

Vision, Mission and/or Purpose of Organization

The largest provider by geographic area of certified peer support services in Pennsylvania, offering guidance, support and hope to individuals recovering from mental illnesses, mental health/intellectual disability dual diagnosis, and/or co-occurring substance abuse disorders. They also provide specialized forensic peer support services in prisons and communities to individuals involved with the criminal justice system who suffer from mental illnesses and/or substance abuse disorders, working closely with law enforcement, corrections, probation and parole and the judiciary.

History of Organization

Peerstar began in 2009 as a free-standing Peer Support Program. Peerstar was also one of the first programs in PA to start a Forensic Peer Support Program with Yale University and a fully-implemented program in Delaware County. Peerstar also operates Forensic Programming in six county jails and in the community within 27 counties.

Accreditations and Licenses

Licensed as a Free-Standing Peer Support Program in Pennsylvania.

Service Description

Peerstar provides certified peer support services and forensic peer support services to individuals in PA. Peerstar partners with other peer support providers in PA and nationwide, providing complete management solutions and expertise to help them increase their clinical/regulatory integrity, efficiency and revenue while decreasing administrative burdens.

Mental Health Peer Support Services: provides recovery-based certified peer support services to individuals recovering from mental illnesses and/or substance abuse disorders who are eligible to receive Medical Assistance (Medicaid) from the PA Department of Public Welfare

Forensic Peer Support Services: provides specialized forensic peer support services in prisons and in the community to individuals involved with the criminal justice system who are suffering from mental illnesses and/or substance abuse disorders. Their in-jail program includes re-entry planning and evidence-based Citizenship Group classes to assist individuals in returning to the community and breaking the cycle of re-incarceration. They work closely with law enforcement, corrections, probation and parole and the judiciary.

Management/Partnership Solutions for Peer Support Providers: Peerstar successfully operates,

manages, and grows peer support programs. They offer peer-professional partnership model and forensic peer support program to other peer support providers in PA and nationwide. They partner with peer support providers both small and large to increase the clinical integrity and recovery outcomes, revenue, operational efficiency and regulatory compliance while decreasing administrative overhead and burdens. Penn State Extension of Indiana County

Organizational Information

Parent Organization

The Pennsylvania State University and USDA National Institute of Food and Agriculture (NIFA)

Vision, Mission and/or Purpose of Organization

to extend nonformal outreach educational opportunities to individuals, families, businesses, and communities throughout Pennsylvania. To enable the Commonwealth to maintain a competitive and environmentally sound food and fiber system and prepare youth, adults and families to enhance the quality of their lives and participate more fully in community decisions.

History of Organization

Cooperative Extension is a key component of the largest educational delivery system in the world, the Land Grant University system. The Cooperative Extension Service system was created by the U.S. Congress because of concern for the education of the average citizen. In 1862 Congress passed the Morrill Act, which provided for a university in each state to provide education to citizens in agricultural and mechanical fields. These colleges are known today as "Land-Grant Universities." Congress soon realized that to be effective, the educational function of land-grant universities needed to be supplemented with research capabilities. The Hatch Act was passed in 1887 to provide for the establishment of research farms where universities could conduct research into agricultural, mechanical, and related problems faced by rural citizens. Congress passed the Smith Lever Act in 1914. This act provided for the establishment of the Cooperative Extension Service. As a result of the Smith Lever Act, there are now Extension offices in every county in Pennsylvania which serve to "extend" information which has been developed on campus and research stations across the state. Over the last century, extension has adapted to changing times and landscapes, and it continues to address a wide range of human, plant, and animal needs in both urban and rural areas. Regardless of the program, extension expertise meets public needs at the local level. Although the number of local extension offices has declined over the years, and some county offices have consolidated into regional extension centers, there remain approximately 2,900 extension offices nationwide. Increasingly, extension serves a growing, increasingly diverse constituency with fewer and fewer resources.

Funding Sources

Federal, State, County government; grants, donations, gifts, endowment, fund raising.

Indiana County

Service Description

We provide research based knowledge to all Indiana County citizens on important current and emerging issues pertaining to agricultural, food and fiber system; natural resources and the environment; children, youth, and families; and economic and community development.

As part of The Pennsylvania State University College of Agricultural Sciences, our goals are to:

- " empower the agricultural system with knowledge that will improve competitiveness in domestic production, processing, and marketing;
- " ensure an adequate food and fiber supply and food safety through improved science based detection, surveillance, prevention, and education;
- " enable people to make health-promoting choices through research and education on nutrition and development of more nutritious foods;
- " enhance the quality of the environment through better understanding of and building on agriculture's and forestry's complex links with soil, water, air, and biotic resources;
- " empower people and communities to address the economic and social challenges facing our youth, families and communities.

Service Description List

Educational methods used include personal consultations, meetings, demonstrations, tours, publications, media and webinars to deliver educational programs on such topics as: 4-H and other Youth programs, Agriculture Production / Marketing, Food Safety, Gardening, Master Gardener Program, Water Quality, Integrated pest management(IPM).

Pennsylvania Housing Finance Agency

PHFA

Organizational Information

Vision, Mission and/or Purpose of Organization

The Pennsylvania Housing Finance Agency was created in 1972 to help enhance the availability of high quality, affordable homes and apartments for Commonwealth citizens. It does this by providing mortgage capital to homebuyers and to sponsors of rental housing for older adults, persons with disabilities, or families with modest incomes. PHFA operates programs in three broad categories: multifamily rental housing development; single family homeownership; and foreclosure prevention through the Homeowners' Emergency Mortgage Assistance Program. So if you need help finding an affordable apartment, or if you are thinking of buying a home and want a mortgage that fits your budget, please contact PHFA at the phone numbers provided, or explore the many housing resources available on our website.

Pennsylvania Mountain Service Corps / AmeriCorps

PMSC

Organizational Information

Parent Organization

Appalachia Intermediate Unit 8

Vision, Mission and/or Purpose of Organization

The Pennsylvania Mountain Service Corps, through a strong ethic of community service and regional partnerships, commits to educating and mentoring children, youth and adults; strengthening families and communities; restoring and conserving the environment; and engaging citizens in the spirit of community service, across our Western Pennsylvania.

History of Organization

Tradition of Service The AmeriCorps program was created in the spirit of Community Service, which has been a traditional and integral part of our American history. In 1933, President Franklin D. Roosevelt organized the Civilian Conservation Corps, which is responsible for having built many of our nation's parks and conservation areas. Following WWII, the GI Bill was created and military service to our country was awarded with educational benefits. In 1960, President John F. Kennedy sought to relieve international distress and poverty by citizen service abroad, through the creation of the Peace Corps. In 1964, President Lyndon B. Johnson was instrumental in the creation of the VISTA program as a domestic Peace Corps to address community issues here at home.

Experimental youth and senior service programs sprang up all over the country during the 1970's and 1980's, depending primarily on the political climate. With this movement, the private and nonprofit sectors began to play a substantial role in both advocacy for, and the development of, volunteer and citizen service. In 1990, President George H. Bush developed the Commission on National and Community Service to engage U.S. citizens in community programs designed to combat illiteracy and poverty, and to address environmental issues. Further expansion of national service took place in 1993 with the signing of the National Community Service Trust Act by President William J. Clinton. This law created a national headquarters that would administer the funds set aside to support community service programs including VISTA, The Senior Corps, Learn and Serve, and a newly created AmeriCorps. In 1994, community leaders met to propose the submission of a grant that would allow this rural region of Pennsylvania to receive some of the federal funds set aside for community service. As a result of that initial meeting, The Appalachia Intermediate Unit 8 became the administering agency for the regional AmeriCorps initiative and The Pennsylvania Mountain Service Corps was created. The PMSC began with a 40 member Corps and two staff persons. They partnered with non-profit and governmental organizations across 10 Pennsylvania Counties, and addressed all four major AmeriCorps initiatives: education, human needs, public safety, and environment. Then, in 2001, following the September 11 tragedies, President George W. Bush asked all Americans to give at least two years or 4,000 hours over their lifetime, and on July 3, 2003, President Bush signed the Strengthen AmeriCorps Program Act, which nearly doubled the number of AmeriCorps members. In 2009, the Serve America Act was passed under President Barack H. Obama continuing the legacy of expanding national service opportunities.

PMSC continues to grow, with over 150 members addressing critical community needs in over 85 agencies. Since the inception of the PMSC AmeriCorps program, thousands of students have been tutored in math and reading, thousands of seniors and families provided with services that would have otherwise gone undone, hundreds of after-school and educational activities presented to at-risk youth, hundreds of miles of water tested and cleaned up, thousands of volunteer hours generated, and a unique collaborative effort of community organizations formed.

Service Area

Allegheny, Armstrong, Bedford, Blair, Cambria, Centre, Clearfield, Fayette, Franklin, Fulton, Greene, Huntingdon, Indiana, Somerset, Westmoreland and Washington Counties

Service Description

The Pennsylvania Mountain Service Corps (PMSC), likened to a domestic Peace Corps, is the regional initiative of the national AmeriCorps program. PMSC accepts full-time and part-time corpmembers, who perform direct service at nonprofit agencies within a twelve county region. Members report to their specific service site on a daily basis. PMSC is a program that provides service in all AmeriCorps priority areas including: Education, Environment, Human Needs, and Public Safety.

PMSC corpsmembers provide service, addressing the needs of diverse people and communities in the region. Examples of a few member positions include: mentoring teens, renovating low income housing, teaching adults to read, counseling victims of violent crimes, tutoring challenged youth, teaching parenting skills, sampling water for pollutants, developing historical trails, encouraging tourism, educating the community on various issues, etc. AmeriCorps members "Get Things Done!"

Primary Health Network

Organizational Information

Vision, Mission and/or Purpose of Organization

The Primary Health Network, a Federally Qualified Health Center, provides quality primary care services and access to specialty care commensurate with the needs of the people in the communities we serve. Services are offered regardless of age, race, creed, sex, national origin, or ability to pay.

History of Organization

The Primary Health Network (PHN) began with one small community health center site in the Shenango Valley, in 1984, with a central focus on providing the highest quality of care to the people we serve. Since our inception in 1984, The Primary Health Network, a private, non-profit organization, has worked with local communities to develop and implement a new model of health care: the Community Health Center. After over 38 years of service, PHN has grown to become the largest Federally Qualified Health Center (FQHC) in Pennsylvania and one of the largest in the nation. Currently, we staff over 150 physicians, dentists, physician assistants, certified nurse practitioners, and other health professionals. Our support staff includes over 450 employees, as well. Last year, we reached over 75,000 patients through health, educational, and enabling services.

rabbittransit

Organizational Information

Vision, Mission and/or Purpose of Organization

rabbittransit, a regional public transportation provider, offers a variety of transportation services to the residents of Adams, Columbia, Cumberland, Franklin, Montour, Northumberland, Perry, Snyder, Union and York Counties. Nearly 8,000 people depend on rabbittransit each day to get to work, medical facilities, school and other life-sustaining activities. rabbittransit is dedicated to helping all residents in the region get to where they want to go. Central Pennsylvania Transportation Authority (doing business as rabbittransit) operates under the authority of the Pennsylvania Municipal Authorities Act of 1945. Mobility is an essential need in order to experience a high quality of life. rabbittransit dedicates itself to providing its constituents safe, reliable and customer-centered mobility services consistent with the stewardship of its resources. The Medical Assistance Transportation Program provides non-emergency transportation to county residents who have a valid medical assistance card. The program helps people who need to make trips to and from certified medical providers for the purpose of treatment, examination, or prescription and/or medical equipment purchase. Staff verify Medical Assistance eligibility, process applications, determine need and type of transportation (bus tickets, mileage reimbursement, or paratransport). The MATP Transport Vehicles are ADA Accessible.

Service Information

Service Description

rabbittransit has been appointed as the Medical Assistance Transportation Program (MATP) Administrator for Indiana County, effective January 1, 2020. Previously, Indiana County served as the MATP Administrator. Customers should notice little to no change in the delivery of MATP shared ride and fixed route service—same drivers and same service.

There will be some minor changes to the mileage and fixed route pass program; however, most of the service will continue to look very familiar. IndiGO will continue to schedule and provide the majority of trips. Mileage and Fixed Route Reimbursement forms are due by the 5th of each month. Reimbursement checks are processed once a month on the Friday closest to the 15th of the month.

Mileage and Fixed Route Reimbursement forms should be mailed to: rabbittransit Attention: Mobility Planning 415 N Zarfoss Drive York, PA 17404.

New forms will be mailed with each reimbursement.

Riders who require a personal care assistant, sometimes referred to as an escort, will need to complete a Personal Care Assistant Form, which requires a doctor's verification.

All forms required can be downloaded from the website.

For trip requests, please call IndiGO to schedule your trip. You can contact the IndiGO Call Center at (724) 801-8857. The Call Center is open between 8:00 AM and 4:00 PM, Monday through Friday.

Available Hours

Real Alternatives

Organizational Information

Vision, Mission and/or Purpose of Organization

The mission of Real Alternatives is to provide life-affirming alternative to abortion services to assist women faced with crisis pregnancies. We accomplish this Mission by: (1) administering a statewide government-funded alternative to abortion services program that funds pro-life social service agencies, pregnancy support centers, maternity homes, and adoption agencies, that provide counseling and material assistance; and (2) educating other pro-life organizations throughout the country about government-funded alternative to abortion services programs. By accomplishing this Mission, we seek to ensure that women facing crisis pregnancies receive support, achieve improved reproductive health, develop improved parenting skills, and receive adoption education, all of which will empower them to choose childbirth rather than abortion.

PA LIFE Program

Vision, Mission and/or Purpose of Organization

Senior LIFE is an option that allows the elderly to live independently on their own while receiving services and supports that meet the health and personal needs of the individual. The LIFE Program is funded through Medicare and Medicaid for qualifying seniors. Living Independence for the Elderly (LIFE) is a managed care program that provides a comprehensive all-inclusive package of medical and supportive services. The program is known nationally as the Program of All-Inclusive Care for the Elderly (PACE). All of the PACE providers in Pennsylvania have the name "LIFE" in their name. The first programs were implemented in Pennsylvania in 1998. To be eligible for LIFE, you must: Be age 55 or older Meet the level of care needs for a skilled nursing facility or a special rehabilitation facility Meet the financial requirements as determined by your local County Assistance Office or be able to privately pay Reside in an area served by a LIFE provider Be able to be safely served in the community as determined by a LIFE provider Services available to you under the LIFE provider include: Adult Day Health Services Audiology Services Dental Services Emergency Care End of Life Services Hospital and Nursing Facility Services In-home Supportive Care Lab and X-ray Services Meals Medical and Non-medical Transportation Medical Specialists Optometry Services and Eyeglasses Nursing and Medical Coverage 24/7 Nursing Care Personal Care Pharmaceuticals Physical, Speech and Occupational Therapies Primary Medical Care Recreational and Socialization Activities Social Services Specialized Medical Equipment

History of Organization

Senior LIFE is the sole LIFE Program Provider in Indiana County.

Soldier On Veterans Outreach Support Services for Veterans Families

Organizational Information

Vision, Mission and/or Purpose of Organization

Their mission is to offer a continuum of care that includes immediate and long-term housing with services delivered where they live. Soldier On's ultimate goal is to provide formerly homeless veterans with permanent, supportive, sustainable housing " assisting them in their transition from homelessness to homeownership.

History of Organization

Soldier On is a private nonprofit organization committed to ending veteran homelessness. Since 1994, the organization has been providing homeless veterans with transitional housing and supportive services. In 2010, Soldier On opened the first Gordon H. Mansfield Veterans Community, a permanent housing cooperative that provides formerly homeless veterans with safe, sustainable, affordable housing " transitioning them from homelessness to homeownership. They work in partnership with the Department of Veterans Affairs and other agencies to provide veterans with shelter and support in an environment that offers dignity, integrity, and, most importantly, hope.

Special Olympics Pennsylvania Armstrong Indiana Counties

SOAI

Organizational Information

Parent Organization

Special Olympics Pennsylvania

Vision, Mission and/or Purpose of Organization

TO PROVIDE YEAR-ROUND SPORTS TRAINING AND COMPETITION IN A VARIETY OF OLYMPIC-TYPE SPORTS FOR CHILDREN AND ADULTS WITH INTELLECTUAL DISABILITIES, GIVING THEM CONTINUING OPPORTUNITIES TO DEVELOP PHYSICAL FITNESS, DEMONSTRATE COURAGE, EXPERIENCE JOY, AND PARTICIPATE IN A SHARING OF GIFTS, SKILLS, AND FRIENDSHIP WITH THEIR FAMILIES, OTHER SPECIAL OLYMPICS ATHLETES, AND THE COMMUNITY.

History of Organization

The movement is known worldwide as Special Olympics began simply as the idea of one extraordinary woman with a vision. Eunice Kennedy Shriver believed that people with intellectual disabilities were far more capable in sports and physical activities than many experts thought. And so, the world's largest amateur sports organization began in 1962 as a day camp in the backyard of Eunice and Sargent Shriver, with the first International Games taking place in 1968. Today, the movement thrives in more than 172 countries throughout the world. In 1969, 187 Pennsylvania athletes traveled to Maryland to participate in the Special Olympics Mid-Atlantic Invitational. It was not until months later, however, that these athletes would have a state program to call their own. In May 1970, the first-ever Special Olympics Pennsylvania (SOPA) competition was held when 135 brave athletes participated in a small track and field competition at West Chester University. Despite its size and scope, an official Special Olympics program came into being that day thanks to the dedication, determination and vision of event organizers and volunteer directors, Dr. Ed Norris and Hank Goodwin from West Chester's Physical Education Department. The event was funded by a grant from the Department of Special Education in Harrisburg and spurred increasing state-wide interest in Special Olympics' mission in the years that followed. Two familiar names in SOPA lore played a role in its beginnings, including one of Pennsylvania's most acclaimed athletes, Loretta Claiborne, who participated in athletics and the late former Chairman of the Board, Al Senavitis, who served as a timer during the West Chester track and field event. Making the program's establishment particularly ceremonious, then-Governor Raymond Shafer designated May 24 - 30, 1970 as "Special Olympics Week" in Pennsylvania by marking the occasion with an official proclamation. As the organization evolved through the 1970s, the competitions moved around the state, with various colleges serving as hosts, including Cheyney, Slippery Rock, and Edinboro Universities. In 1978, a milestone of significant note occurred with the appointment of Frank Dean as the first Executive Director of SOPA. The organization grew rapidly through the 1980s as the staff grew, county programs were founded, and local events were held across the state. Similar growth continued through the 1990s and early 2000s leading up to current President & CEO Matthew B. Aaron taking over in November 2008. In the 11 years since SOPA has enjoyed robust growth and is on the verge of a reorganization that will continue to draw even more athletes and volunteers to the program. Today, Special Olympics Pennsylvania trains nearly 20,000 athletes who compete annually in 21 Olympic-type sports at over 300 local, sectional, and state-level competitions. For The Past 50 Years! For 50 years, SOPA has used the power of sports to transform the lives of people with intellectual disabilities and unite everyone by fostering community and building a more acceptable and civil society. Through what has now blossomed into 54 local programs across the state, most of which are county or city-based, SOPA provides services that promote physical fitness and leadership skills development. Athlete Leadership Programs are

offered to empower athletes to assume meaningful leadership roles, influence change within the Special Olympics movement, and create inclusive communities around the world. Through these programs, athletes take on roles as Global Messengers (trained as public speakers for Special Olympics), athlete representatives, coaches, board members, and more. Special Olympics also helps to address major challenges facing its athletes: obesity, healthcare and employment. Obesity is more common among individuals with Intellectual Disabilities (ID) than in the general population. Likewise, far too often persons with ID go without medical treatment, not by their choice, but because there are very few physicians, dentists, optometrists/ophthalmologists, and podiatrists that are actually trained in treating this population. In response to these health challenges, SOPA provides free athletic training and competition year-round in Olympic-type sports for persons with ID. With sports at the core, Special Olympics directly addresses the problem of obesity by promoting healthy, active lifestyles. In addition, SOPA's Healthy Athletes® initiative, a program offering free health screenings in the form of eye, ear, dental and podiatry assessments, is provided for athletes during select statewide Games. These screenings are conducted in fun, welcoming environments, and for some athletes, are the first time they have ever seen a doctor. Additionally, SOPA strives to create a unified world by promoting inclusion, uniting communities, and changing attitudes. Through Unified Sports, SOPA brings together individuals with and without intellectual disabilities as equal teammates in training and competition. This growing statewide program builds fully inclusive schools and communities, promotes respect and acceptance, and facilitates meaningful relationships between people of all abilities. Our Benefits The Special Olympics experience fills a critical need in the lives of people with intellectual disabilities by providing opportunities for physical activity, social interaction, and the demonstration of competence to themselves, their families and the community. Athletes learn developmental and life skills as the benefits of participation translate beyond sports, helping them to live more independent and rewarding lives. Special Olympics also provides a positive venue for families, volunteers, and donors to become part of a caring community, and to become involved in the movement.

Volunteer Description

Individuals ages 16 and older may volunteer for weekend retreats and summer camp to assist participants with disabilities or perform support services. Volunteers must have clearances and negative TB test. Volunteer opportunities are also available for job coaching, study hall assistance, and clerical assistance.

St. Andrew's Village, Continuing Care Retirement Community

SAV, Julia Pound Care Center, Bristol Court, Village House and Grace Manor

Organizational Information

Parent Organization

Presbyterian Senior Living

Vision, Mission and/or Purpose of Organization

Guided by the life and teachings of Jesus, the mission of Presbyterian Senior Living is to provide compassionate, vibrant and supportive communities and services to promote wholeness of body, mind and spirit. St. Andrew's Village is Indiana County's only continuing care retirement community (CCRC), with Independent Living Apartments, Personal Care, Short-Term/Post-acute Nursing and Rehabilitative Care, Memory Support Care, Long-Term Nursing Care and Home Care services. We are a not-profit community providing over \$3 million dollars of charitable care to individuals from Indiana and surrounding counties annually.

History of Organization

St. Andrew's Village opened in 1982 as a not-for-profit nursing home and over the past 30+ years has grown to become a full-service continuum of services for seniors and patients requiring short term rehab/nursing. Our health center offers a short term rehabilitation unit, a Memory Support neighborhood, and two residential nursing neighborhoods. The Bristol Court, independent living apartments, were added to the campus in 1988; and the Village House personal care community was added in 1999. In 2008, Grace Manor rental apartments located on North 9th Street in Indiana added market rate apartments to our spectrum of services and housing. These patio apartments offer affordable independent living options for individuals 55 and older.

Summit Legal Aid (Previously Laurel Legal Services)

Summit Legal

Organizational Information

Vision, Mission and/or Purpose of Organization

The Mission of Laurel Legal Services is to provide quality legal representation to low-income residents in our six-county service area and to be a recognized community partner as a resource for justice. We believe that no one should be left without the basic necessities of life: Shelter, Food, Safety, and Security. We believe that we have a duty to families who have nowhere to turn to for help. We believe that everyone should have equal access to justice - regardless of income level.

History of Organization

Founded in 1967, Laurel Legal Services was founded on the same premise that has shaped the nation - liberty and justice for all. Serving Westmoreland, Armstrong, Cambria, Clarion, Indiana, and Jefferson Counties, Laurel Legal Services has assisted thousands of residents in the local communities who have faced issues such as eviction, foreclosure, bankruptcy, abuse, loss of custody, loss of benefits, and other legal issues.

Affiliations

Laurel Legal Services is a part of the Southwestern Pennsylvania Legal Services Consortium. Included in the Consortium is Neighborhood Legal Services and Southwest PA Legal Aid Services

The CARE Center of Indiana County

CARE-Child Advocacy and Relationship Enhancing

Organizational Information

Vision, Mission and/or Purpose of Organization

The CARE Center of Indiana County is a non-profit corporation dedicated to improving the lives of abused, neglected and at-risk children and their families through multidisciplinary efforts that support the identification, prevention, and intervention of child abuse and neglect. They promote healthy families through Family Preservation Services, Nurturing Parent Groups, Supervised Visitation and Community Outreach and Education. They provide a safe and child friendly environment for children who may have been sexually abused to tell their story in order to promote their healing by ending the abuse and by helping to stop the perpetrator from abusing other children.

Service Information

Service Area

Indiana County (other counties as contracted)

Service Description

Mutual Support Groups- are provided throughout the county to the general parenting populations, and to specialized groups of parents facing similar parenting issues.

Supervised Visitation- court ordered, custody induced visitation between non-custodial parents and children are held at the Center offices or other community location, under the supervision of a parent educator; provides opportunity for safe child access in vulnerable custody situations.

Community Education- workshops, seminars, training, and other services to educate the public on issues of parenting, child abuse and neglect, prevention measures, and a wide range of other topics.

Staff will speak to PTA groups, university classes, civic organizations, church groups, adolescent groups, elementary school classes, and other interested organizations.

Nurturing Program- using a parent education curriculum, classes are structured, build upon previous topics, and culminate in a closing activity after 8-12 weeks. Topics include discipline, nurturing, appropriate child expectations, and other such topics. Classes are two hours in length, with the final 30 minutes devoted to mutual support.

Family Preservation Services- a home visitation program which assists parents in the development of skills needed to ensure safe and healthy care of their children; designed to be a "hands-on" training method, with one-to-one affirming support for "at risk" families.

Child Advocacy Program-

** Collaboration with community agencies/services-The Alice Paul House helps the young abuse victims prepare for court. They take the child to visit the courtroom to see what it's like, and will coach them how to speak loudly. The IRMC will provide the medical analysis needed for many child abuse cases.

** Interviews alleged victimized children in a comfortable environment. The child provides a statement and answers questions posed by a trained forensic interviewer. The child is interviewed behind a one-way mirror that is utilized for observing the alleged child abuse victim. Representatives on the other side of the mirror may include: representatives of the District Attorney's Office, law enforcement and Children and Youth Services. The non-offender family members who have accompanied the child meet with family advocates and representatives from the Alice Paul Houe, a local agency which assists victims of domestic violence. This process is intended to make the interviewing process easier on the victimized child as he or she will be telling their story one time, to one person.

Available Hours

General Business hours: 8:00 am to 4:00 pm; Monday through Friday; Services by appointment

Fees/Cost for Services

No fees for families referred through Children and Youth Services. All court ordered supervised visits are subject to fees for service.

Eligibility Requirements

All Indiana County residents are eligible for services

The Open Door Of Indiana, PA

Behavioral Health Organization

Organizational Information

Vision, Mission and/or Purpose of Organization

The Open Door is a licensed non-profit behavioral health organization designed to provide treatment and services for substance use and gambling related concerns; court related programs; and crisis intervention for Armstrong and Indiana county residents with a focus on inspiring steps toward hope, courage, and recovery.

History of Organization

The Open Door (TOD), from its inception in 1972 as a United Ministry Volunteer Task Force, has offered crisis intervention services. Since that time, we have grown into a licensed outpatient facility providing a variety of services including Alcohol and Other Drug Screening, Assessment, Education, and Treatment; Crisis Intervention Services; and DUI Evaluation. In 1996, an affiliation agreement with Indiana Regional Medical Center (IRMC) was established to increase access for services. In 2012, TOD partnered with Armstrong-Indiana Behavioral & Developmental Health Program (BDHP) to provide telephone and walk-in crisis services, adding mobile crisis services in 2015. The Open Door staff includes a physician, full-time, Master's and Bachelor's level degreed and trained therapists, RN Nurse Navigator, criminal justice staff, an executive director and administrative staff, and a dedicated mental health crisis intervention staff. The agency is licensed by the Pennsylvania Department of Health, Bureau of Drug and Alcohol Programs for Drug & Alcohol Outpatient Services; as well as being licensed by the Office of Mental Health and Substance Abuse Services for the crisis program.

United Way Of Indiana County

United Way

Organizational Information

Vision, Mission and/or Purpose of Organization

The mission of the United Way of Indiana County is to meet critical needs and improve the quality of life throughout Indiana County by inspiring and uniting its residents.

History of Organization

In November 1930, what is now known as the United Way of Indiana County was formed as a small group that called itself the Central Charities of Indiana Borough to begin its goal of assisting residents who were lacking in the most basic of needs - food, clothing and shelter. Representatives from Indiana Borough Council, County Commissioners, American Red Cross, Salvation Army, Rotary, Lions, Kiwanis, Chamber of Commerce, Boy Scouts of America, YMCA, Indiana County Medical Society, County Welfare and the Ministerial Association were present. The initial office was in the Indiana Theatre Building, and representatives from the Indiana Borough Council, Chamber of Commerce, County Commissioners, various civic groups and nonprofit organizations coordinated a benefit in November of that year to raise donations to be distributed to the needy families of the county. Only food or clothing was accepted for admission and was distributed just after Thanksgiving to those who needed it. Foster, President of the Normal School (and who now has a dining hall on the IUP campus named after him in honor of his philanthropic work and contributions to education in W PA), was the first campaign General Chairman. The goal, which was successfully met that year, was \$25,000! Now over 90 years old, the United Way has evolved in its fundraising and community investment strategies, but the vision for a community where people thrive, live healthy lives, and everyone has the opportunity to reach their full potential still stands strong.

Leader for Community Impact Initiatives

Community Resource Agency

Fundraiser for Community Impact Initiatives

The United Way invests in local community services that help people achieve their full potential, improve the health of the community, deliver resources to the community such as:

- o Readiness to Succeed in School
- o Academic Achievement
- o Social & Emotional Learning
- o Empowered & Engaged Families
- o Life Success
- o A Healthy Start
- o Safe Home & Community
- o Quality Health Care & Social Services
- o Support for Mental Health & Chemical Dependency
- o Basic Needs
- o Shelter & Utilities
- o Food Support
- o Disaster Support

The United Way is the lead coordinator for a county-wide Prevention Coalition. The Coalition uses a Communities That Care (CTC) process that includes a collaboration of cross-sector community-service providers, educators, policy makers, law enforcement, faith based and community representatives. It takes a practical, evidence-based, outcome-focused approach utilizing science-based prevention methods to change the lives of our children and combat problematic behavior before they start.

Service Information**Service Area**

14 county catchment area: Elk, Cameron, Clinton, Jefferson, Clearfield, Centre, Juniata, Mifflin, Huntingdon, Blair, Cambria, Indiana, Somerset, and Bedford counties

Service Description

Acute Care program provides inpatient care to veterans in 28 total operating beds; four are dedicated to providing intensive care.

Behavioral Health program provides consultation, evaluation, and treatment for a variety of issues that can impact emotional well-being

Diagnostic Services-The medical center's ancillary services, such as pathology/laboratory medicine and radiology, are available on a continuous basis. In addition to diagnostic radiographic studies, the Radiology Service provides fluoroscopic, ultrasound, computerized tomography (CT) scans, and dual energy x-ray absorptiometry (Dexascan) services

Emergency Care- The medical center maintains a level III Emergency Room, which provides acute medical care for most emergencies 24 hours a day. Trauma patients are provided appropriate care in the emergency departments of nearby hospitals.

Long Term Care program includes: community living center, home based primary care, care coordination/home telehealth, hospice, and respite care

Pharmacy processes more than 2,000 prescriptions daily. Prescriptions may be refilled by mail, by phone, or online.

Primary Care program offers an extensive range of treatments with an emphasis on health care prevention

Social Services are an integral part of health care. The social services staff assists veterans with counseling and community services.

Specialty Care program offers: behavioral health, cardiology, dental, dermatology, ear/nose/throat, surgery, neurology, ophthalmology, optometry, orthopedics, physical medicine and rehabilitation services, podiatry, pulmonary, urology, and women's health/gynecology.

Women's Health program offers gynecological and obstetrics care.

Health Care for Homeless Veterans (HCHV)- The mission of the HCHV Program is to provide services that enable Homeless Veterans to achieve and maintain the highest level of health, social, and independent functioning in the community. Veteran must be homeless, eligible for VA Health Care, discharged from military (honorable or general under honorable conditions), must have psychiatric and medical clearance, be abstinent from drugs and/or alcohol while enrolled in program, must be currently engaged, and in compliance with, treatment of mental health, substance abuse, and/or medical issues; eligible veterans can be referred through a VAMC provider by consultation request, be self-referred, or referred from community agencies. Services include outreach, case management, health care, behavioral health programs, compensated Work Therapy, Housing, Shelters.

Shelter: Family Services of Altoona offers emergency housing for up to 30 days.

Short Term Housing- Tomorrow's Hope- a residential housing facility in Coalport, Cambria County. This program offers case management, transportation to VA appointments, career counseling, meals and supportive housing

Permanent Housing-

Veteran's Assistance Supportive Housing Vouchers (HUD/VASH) Program-25 Vouchers available in Indiana County; offered through local Housing Authorities for homeless Veterans to secure permanent housing; Veteran must be registered to receive veterans services through local Veterans Affairs office; income eligibility, honorably discharged, must be able to live independently, non-emergency housing option; veteran must be referred to the Homeless Coordinators at the VAMC who will assess eligible veterans for all homeless services and will connect them with HUD VASH Case Managers.

Health Care for Homeless Veterans Substance Use Disorder- this program addresses substance abuse issues among homeless veterans; works with Tomorrow's Hope and the VA Behavioral Health Staff

Homeless Veterans Supported Employment Program (HVSEP)-a service that helps homeless Veterans find and maintain meaningful jobs in the community. The jobs are competitive, paying at least minimum wage, and are based on the Veteran's preferences and abilities. The supported employment shifts vocational rehabilitation from a "train and place" to a "place and train" model.

VA Benefits- Homeless Veterans may be eligible for financial benefits to assist with security deposits and prevent evictions

Veterans Justice Outreach (VJO) Program- helps all Veterans who are eligible; gives Veterans information on the health care programs available to them in VA Medical Centers and in the local area; provides information to the courts about a Veteran's participation in treatment-if Veteran signs a release; assists Veterans with VA treatment options to help them to avoid further criminal justice involvement..

VNA

Organizational Information

Vision, Mission and/or Purpose of Organization

The mission of the VNA is to provide the full range of compassionate, high quality, cost-effective services needed to maintain people in their homes and communities as long as possible. It is the intention to provide these services on the basis of need, regardless of ability to pay.

History of Organization

VNA has its origin in 1970 when a group of doctors, nurses and community minded individuals sought to improve care for the homebound. VNA has expanded and developed programs to meet the changing health care needs of our community through the years. VNA offers full range of home care services. VNA Family Hospice was started in 1985. A coordinated program of medical, spiritual, psychological and social work services are directed at providing relief and comfort for as long as life remains.

YMCA of Indiana County

YMCA

Organizational Information

Parent Organization

YMCA of the USA

Vision, Mission and/or Purpose of Organization

To put Christian principles into practice through programs that build a healthy spirit, mind, and body for all.

History of Organization

For over 100 years, the YMCA of Indiana County has been a vital part of community life in Indiana. The concept of a center for community activity began when a group of Indiana residents met at the old courthouse in downtown Indiana to discuss building a YMCA. The official incorporation was approved in 1911 and a fund raising campaign was launched to pay for the construction of a new building. Within a year, the funds were raised, land in downtown Indiana was purchased, and construction began. The YMCA was completed in 1912 and formally dedicated in November 1913. Since opening the doors of its first building in 1913, the YMCA has put Christian principles into practice through programs, facilities, and services that build a healthy spirit, mind, and body for all. The Y builds strong kids, strong families, and strong communities. The YMCA of Indiana County received its National Charter in 1971 and, in that same year, completed a campaign to construct a permanent facility at its current site on 14 acres of land in White Township. The current YMCA of Indiana County site was opened in 1973 with a swimming pool and locker rooms. Since its opening, the site has been renovated and expanded a number of times to include a recreation center, large wellness center, exercise studio, cycling studio, gymnasium, tumbling room, childwatch, conference room, Miracle Field, 4 ball fields, 2 sand volleyball courts, a half mile walking track and 3 picnic pavilions. In 1996 the YMCA started providing daily operational leadership to Mack Park Swimming Pool. In 2013 the YMCA set up a DBA for the Miracle League of Indiana County and in 2015 had our first Miracle League of Indiana County baseball game. This program provides people with different special needs an opportunity to play baseball. In 2018 the YMCA set up a DBA for the Positive Coaching Coalition of Indiana County (PCCIC). The purpose of this program is to help the coaches of young people in our community become more intentional leaders of our youth. With a goal of teaching our children to be winners on the field and winners in life, this double goal approach follows a program set up by the Positive Coaching Alliance (PCA).

Legal Structure

Non-profit corporation

Funding Sources

The YMCA is a 501c3 not-for profit organization that generates its revenues through membership and program fees. In addition, the YMCA conducts an Annual Fundraising campaign and special events to raise funds to support the Annual Fund campaign to provide financial assistance to children and families who are unable to afford the programs and services the YMCA has to offer. The YMCA does not receive financial support from local, state or federal government sources. Occasionally the YMCA applies for and receives grant funding for specific programs and projects.
